Specification Summary

Brand	Evva
Product type	Double Oval

Product Description

The EVVA A5 ODZ Oval Double Cylinder offers a robust and reliable locking solution for doors requiring a standard oval profile cylinder. Built on the dependable EVVA A5 5-pin system, this double cylinder provides a practical balance of security and durability.

This specific model is stocked Keyed Alike (KA) to pass key reference A67670, making it an excellent choice for properties where you want to operate multiple doors using a single key. Each cylinder is supplied with three keys as standard, alongside a connecting screw for straightforward installation.

To suit your door's hardware and aesthetic, this cylinder is available in multiple finishes, including Polished Brass and Nickel Plated. Please select your preferred finish from the options below.

Additionally, the cylinder features 30-minute fire resistance (tested up to 821°C) and utilizes an unrestricted 'A' section key profile, allowing for straightforward key duplication when required.

Technical Specifications

- **Cylinder Profile:** Oval
- **Cylinder Type:** Double Cylinder
- **Overall Length:** 72mm (36/36 split)
- **Mechanism:** 5-pin
- **Keying:** Keyed Alike (to pass key A67670)
- **Keys Supplied:** 3 keys
- **Fire Resistance:** 30 minutes to 821°C (Grade 0)
- **Key Profile:** Unrestricted 'A' section

Key Features

- **Keyed Alike Convenience:** Stocked to pass key A67670, allowing multiple cylinders to be operated by a single key
- **Reliable Security:** Robust 5-pin mechanism provides dependable everyday protection
- **Fire Tested:** Offers 30-minute fire resistance up to 821°C
- **Multiple Finishes:** Available in Polished Brass and Nickel Plated to match your existing door furniture (please select below)
- **Unrestricted Key Profile:** 'A' section profile allows for easy and unrestricted key duplication
- **Complete Package:** Supplied with 3 keys and a connecting screw for easy installation

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as "start-up energy since 1919" (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
