Specification Summary

Brand	Evva
Product type	Half Oval

Product Description

The EVVA A5 OHZ Keyed to Differ (KD) Half Oval Cylinder is a standard oval profile lock designed for reliable security. Built on the basic yet robust EVVA A5 5-pin locking system, this cylinder is ideal for a variety of domestic and commercial applications. It comes complete with a connecting screw and features an unrestricted 'A' section key profile.

This cylinder is highly versatile and available in a range of sizes and finishes to suit your door's requirements. Choose from overall body lengths of 41mm or 46mm (32mm or 37mm to the centre of the cam) and finishes including Polished Brass or Nickel Plated. Please select your required size and finish from the options below.

Additionally, the EVVA A5 system supports several optional special features on request, including cog wheel cams, construction keying, bump resistance, and sea water protection. Please contact our team if you require any of these bespoke configurations.

Technical Specifications

- **Cylinder Profile:** Standard Oval
- **Cylinder Type:** Half Oval (Single Cylinder)
- **Locking Mechanism:** 5-pin system
- **Keying:** Keyed to Differ (KD)
- **Key Profile:** Unrestricted 'A' section (F section available to special order)
- **Fire Resistance:** 30-minute fire resistance up to 821°C
- **Overall Length Options:** 41mm or 46mm (Please choose from the options below)
- **Size to Centre of Cam:** 32mm or 37mm (Please choose from the options below)
- **Finish Options:** Nickel Plated or Polished Brass (Please choose from the options below)
- **Keys Supplied:** 3 keys as standard

Key Features

- **Robust Security:** Built on the reliable EVVA A5 5-pin mechanical platform for dependable everyday protection.
- **Adjustable Cam:** Supplied with an adjustable cam for easier installation and alignment.
- **Fire Rated:** Tested to offer 30-minute fire resistance up to 821°C.
- **Complete Package:** Supplied with 3 keys and a connecting screw as standard.
- **Flexible Options:** Available in multiple sizes and finishes - please select your preferred configuration below.

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as "start-up energy since 1919" (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
