Is Cylinder

Product Description

The EVVA A5 OKZ Oval Key & Turn Cylinder is a high-quality, robust 5-pin locking cylinder designed for standard UK oval profile lock cases. Featuring a key-operated mechanism on the external side and a convenient thumbturn on the internal side, it provides a perfect balance of security and quick, keyless egress in an emergency.

Built on the reliable EVVA A5 system, this cylinder is supplied keyed to differ with three keys as standard. It is fire-tested to Grade 0 (providing 30-minute fire resistance) and is suitable for a wide range of domestic and commercial applications.

This cylinder is available in multiple overall body lengths, including 62mm, 72mm, and 82mm, with corresponding internal and external offsets. It is also offered in two high-quality finishes: Nickel Plated and Polished Brass. Please select your required size, offset, and finish from the options below to find the perfect fit for your door.

Technical Specifications

- **Cylinder Profile:** Oval
- **Cylinder System:** EVVA A5
- **Mechanism:** 5-pin

- **Overall Lengths Available:** 62mm, 72mm, or 82mm (please choose from the options below)
- **Offsets Available:** 31/T31, 36/T36, or 41/T41 (please choose from the options below)
- **Finishes Available:** Nickel Plated or Polished Brass (please choose from the options below)
- **Keying:** Keyed to differ
- **Keys Supplied:** 3 keys as standard
- **Fire Tested:** Grade 0 (up to 30 minutes fire resistance)
- **Packaging:** Boxed

Key Features

- **Key & Turn Operation:** Key entry from the outside with a convenient thumbturn on the inside for quick, keyless exit.
- **Robust 5-Pin Security:** Built on the reliable EVVA A5 mechanical platform for dependable daily use.
- **Fire Rated:** Grade 0 fire tested, offering up to 30 minutes of fire resistance.
- **Versatile Options:** Available in a range of sizes and finishes to suit your specific door thickness and hardware style.
- **Supplied with Keys:** Includes 3 high-quality keys as standard.

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as "start-up energy since 1919" (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
