Specification Summary

Brand	Evva
Product type	Cards & Fobs

Product Description

The EVVA AirKey Proximity Card is a high-quality, secure access control medium designed specifically to operate the EVVA AirKey range of proximity locks. Featuring a clean, professional EVVA design in a white finish, these cards offer a convenient alternative to using a smartphone for access control, making them ideal for employees, visitors, or temporary guests.

Utilising advanced MIFARE DESFire EV1 technology, these proximity cards ensure reliable and secure contactless communication with your AirKey locking components. They are easy to program and manage via the AirKey online administration platform, allowing you to easily assign or revoke access permissions as required.

These proximity cards are available in multiple pack quantities, weights, and manufacturer references to suit the scale of your access control system. Please choose your preferred option from the selection below.

Technical Specifications

- **Brand:** EVVA
- **Technology:** MIFARE DESFire EV1
- **Finish:** White
- **Compatibility:** EVVA AirKey Proximity Locks
- **Pack Quantity:** Available in packs of 5, 25, or 100 (please choose from the options below)
- **Weight:** 6g, 30g, or 60g (please choose from the options below)
- **Manufacturer Reference:** E.A.IM.KA.J80K+D08K.EC.M5, E.A.IM.KA.J80K+D08K.EC.M25, or E.A.IM.KA.J80K+D08K.EC.M100 (please choose from the options below)

Key Features

- **Seamless Compatibility:** Specifically designed for use with the EVVA AirKey range of proximity locks.
- **Advanced Security:** Utilises secure MIFARE DESFire EV1 contactless technology.
- **Professional Design:** Features a clean, smart EVVA-branded white design.
- **Flexible Access Control:** Ideal alternative to smartphones for staff, visitors, or temporary users.
- **Multiple Pack Options:** Available in various pack sizes to suit systems of any scale.

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as "start-up energy since 1919" (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
