Specification Summary

Brand	Evva
Product type	Key Cap

Product Description

The EVVA EPS Coloured Key Caps are the perfect accessory for organising and easily identifying your keys. Specifically designed to fit Evva EPS keys, these caps help you colour-code your keyring, making it simple to distinguish between different doors or access areas at a glance.

Constructed from durable materials, these key caps are built to withstand daily wear and tear while remaining incredibly easy to fit. They are available in a wide variety of vibrant colours, including Azure, Black, Blue, Dark Green, Grey, Light Green, Orange, Pink, Red, and Yellow. Please choose your preferred finish and specification from the options below.

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as "start-up energy since 1919" (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
