Is Cylinder

Product Description

The EVVA EPSnp KDZ Key & Turn Euro Cylinder is a high-security mechanical locking solution offering exceptional protection and convenience. This cylinder is TS007 3-star rated, providing robust resistance against common forced entry methods including bumping, drilling, and picking. It is supplied keyed to differ on our secure in-house section and comes complete with three keys.

Patent protected until 2041, the EVVA EPSnp system features legal and technical key protection mechanisms to prevent unauthorised key duplication. It is an economical and highly reliable choice for residential and commercial doors alike, and is fire tested to Grade B (BS EN 1634).

This cylinder is available in a variety of sizes and weights to suit different door thicknesses. The overall body length ranges from 77mm to 102mm (overall sizes from 41/T36 to 51/T51), with the 'A' side available from 41mm to 51mm, and the 'B' side (turn) from 36mm to 51mm. Weights range from 282g to 399g. Please choose your required cylinder size, overall length, and cam specifications from the options below.

Optional special features such as clutch cams (SOS), cog wheel cams, classroom functions, and all-weather covers are also available upon request. Please contact us for more information.

Technical Specifications

- **Brand:** EVVA
- **Cylinder Profile:** Euro
- **Cylinder Type:** Key & Turn Euro
- **Finish:** Nickel Plated
- **Mechanism:** 6 Pin
- **Keying:** Keyed To Differ (supplied with 3 keys)
- **Standards:** TS 007:2015 - 3 Star, BS EN 1303:2005, BS EN 1634
- **Fire Tested:** Grade B
- **Patent Protection:** Until 2041
- **A Side Length:** 41mm to 51mm (please select from the options below)
- **B Side (Turn) Length:** 36mm to 51mm (please select from the options below)
- **Overall Body Length:** 77mm to 102mm (please select from the options below)

Key Features

- **TS007 3-Star Rated:** High-security rating meeting BS EN 1303:2005 and TS007 standards for maximum protection.
- **Patent Protected:** Legal and technical key protection until 2041 to prevent unauthorised key copying.
- **Attack Resistant:** High resistance to bumping, drilling, and picking.
- **Convenient Operation:** Key entry on the outside with a thumbturn on the inside for easy locking and unlocking.
- **Fire Tested:** Grade B certified to BS EN 1634 for use on fire and smoke doors.
- **Supplied with 3 Keys:** Keyed to differ on our secure in-house section.

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as "start-up energy since 1919" (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
