Specification Summary

Brand	Evva
Product type	Key & Turn Euro

TAGS

Is Cylinder

Product Description

The EVVA ICS KDZ Euro Key & Turn Cylinder offers high-security protection for residential and commercial properties. This premium cylinder is TS007 3* rated and BSI Kitemarked, providing exceptional resistance against common forced entry methods. Supplied keyed to differ on our secure in-house section, it features a standard euro profile and comes complete with a connecting screw and three keys.

The patented ICS (Inner Code System) is a highly durable, reversible key system designed with maximum keying potential. This makes it ideal for planning complex master key systems with future expansion in mind. The system

incorporates both legal and technical key protection mechanisms to prevent unauthorised key copying.

This cylinder is available in a variety of sizes to suit different door thicknesses. The A Side ranges from 36mm to 51mm, the B Side (Turn) ranges from 36mm to 51mm, and overall body lengths range from 72mm to 102mm. Please choose your required sizes and specifications from the options below.

Optional special features (such as clutch cam, cog wheel cams, and sea water protection) are also available. Please contact us for more information.

Technical Specifications

- **Brand:** Evva
- **Cylinder Profile:** Euro
- **Cylinder Type:** Key & Turn Euro
- **Keying:** Keyed To Differ
- **Keys Supplied:** 3
- **Mechanism:** 10 Pin
- **Finish:** Nickel Plated
- **Standards:** TS 007:2015 - 3 Star, BS EN 1303:2005, BS EN 1634 (Fire Tested Grade B)
- **Body Length:** 72mm to 102mm (please choose from the options below)
- **A Side:** 36mm to 51mm (please choose from the options below)
- **B Side (Turn):** 36mm to 51mm (please choose from the options below)

Key Features

- **TS007 3-Star Rated:** BSI Kitemarked to guarantee quality, safety, and high-security protection
- **Patented ICS System:** Features a patented, registered reversible key system with high-precision security
- **Key Copy Protection:** High degree of protection against unauthorised key duplication
- **Master Key Compatible:** Designed with high keying potential, making it ideal for master key suites
- **Fire Tested:** Grade B certified to BS EN 1634 standards
- **Complete Package:** Supplied with 3 keys and a connecting screw as standard

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as "start-up energy since 1919" (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
