Specification Summary

Brand	Exidor
Product type	Panic Latch

Product Description

The Exidor 296 Panic Latch is a highly reliable and durable emergency exit solution designed for single doors and the first opening leaf of double doors (with rebated meeting stiles where a vertical bolt is fitted to the other leaf). This surface-mounted unit is operated by a simple downward push on the crossbar, allowing for immediate and effortless egress in panic situations.

As a non-handed (reversible) panic latch, it is suitable for both left and right-handed doors opening outwards. It comes supplied with timber door fixing screws as standard, and includes an adaptor to allow operation from the outside via a standard rim cylinder (sold separately).

Fully Certifire approved and compliant with BS EN 1125 standards, the Exidor 296 is ideal for public buildings and areas where safety is paramount. The crossbar can be easily cut to size on-site to suit doors up to 1220mm wide.

Technical Specifications

- **Brand:** Exidor
- **Model:** 296
- **Standards:** BS EN 1125, Certifire approved
- **Handing:** Reversible (non-handed)
- **Finish:** Silver Enamelled
- **Maximum Door Width:** 1220mm
- **Suitable Door Type:** Timber doors (standard fittings included)
- **Weight:** 2.9kg

Key Features

- **Easy Egress:** Simple downward thrust on the crossbar retracts the latch for immediate exit in an emergency.
- **Versatile Application:** Suitable for single doors or the first opening leaf of rebated double doors.
- **Reversible Design:** Non-handed construction allows for easy installation on both left and right-handed doors.
- **Outside Access Compatible:** Supplied with an adaptor for integration with a standard rim cylinder (not included).
- **Adjustable Width:** The crossbar can be cut down on-site to fit narrower door widths.

Brand Profile

Exidor

Exidor is a UK panic-and-emergency-exit hardware brand best known for **push bars, push pads, and multi-point exit devices** used on fire exits and escape routes in commercial buildings. It's one of those "you don't notice it until you *really* need it" brands—built around reliable, standards-compliant egress hardware.

Exidor says it has been a leading manufacturer in this category for **around 90 years**, and trade/brand info places its establishment at **1931**.

Standards & compliance are central to the brand's positioning: Exidor panic and emergency exit devices are marketed as **CE marked** and **tested to EN 1125 (panic exit devices)** and **EN 179 (emergency exit devices)**—the core European standards that specifiers and installers care about for public buildings and controlled escape routes.

Ownership / group: Exidor was acquired by **ASSA ABLOY Opening Solutions UK & Ireland in 2018** (widely reported in trade press), and Companies House filings list **Assa Abloy Limited** as the controlling party.

Where it sits today: Exidor is now presented as a **range within the UNION family** (ASSA ABLOY's UK door hardware portfolio), and the brand is used across "real world" commercial projects where you might need bespoke finishes, different keep/bolt options, alarms, or microswitch variants for monitoring.
