Specification Summary

Brand	Exidor
Product type	Touch Bar

Product Description

The Exidor TB450 Touch Bar Panic Latch features electronic latch retraction (ELR) and built-in electronic dogging, making it an ideal choice for integrating with a building's access control system. This surface-mounted panic latch is designed for timber or steel single doors up to 900mm wide, as well as double door applications. It ensures that security and access restrictions are maintained while providing a safe and speedy exit in panic situations.

Operating on low power (24V DC), the TB450 is non-handed for universal installation. It features a patented lip to prevent accidental jamming of the touch bar. The latch can also be used on steel or aluminium doors when paired with an appropriate keep (not supplied). Fully certified to EN 1125 and CE marked, it offers reliable performance and peace of mind for commercial premises, schools, and public buildings.

Technical Specifications

- **Brand:** Exidor
- **Manufacturer Reference:** 400SE / TB450
- **Finish:** Silver Enamelled
- **Suitable Door Width:** Up to 900mm

- **Operating Voltage:** 24V DC
- **Handing:** Non-handed (universal)
- **Standards:** Certified to EN 1125, CE marked
- **Mounting:** Surface mounted
- **Weight:** 3.35kg

Key Features

- **Access Control Integration:** Electronic latch retraction (ELR) and electronic dogging device for seamless integration with building security systems
- **Low Power Consumption:** Efficient operation on a 24V DC power supply
- **Anti-Jamming Design:** Patented lip design prevents accidental jamming of the touch bar
- **Versatile Application:** Suitable for timber or steel single and double door applications
- **Emergency Exit:** Provides safe and speedy exit in panic situations by simply pushing the touch bar

Brand Profile

Exidor

Exidor is a UK panic-and-emergency-exit hardware brand best known for **push bars, push pads, and multi-point exit devices** used on fire exits and escape routes in commercial buildings. It's one of those "you don't notice it until you *really* need it" brands—built around reliable, standards-compliant egress hardware.

Exidor says it has been a leading manufacturer in this category for **around 90 years**, and trade/brand info places its establishment at **1931**.

Standards & compliance are central to the brand's positioning: Exidor panic and emergency exit devices are marketed as **CE marked** and **tested to EN 1125 (panic exit devices)** and **EN 179 (emergency exit devices)**—the core European standards that specifiers and installers care about for public buildings and controlled escape routes.

Ownership / group: Exidor was acquired by **ASSA ABLOY Opening Solutions UK & Ireland in 2018** (widely reported in trade press), and Companies House filings list **Assa Abloy Limited** as the controlling party.

Where it sits today: Exidor is now presented as a **range within the UNION family** (ASSA ABLOY's UK door hardware portfolio), and the brand is used across "real world" commercial projects where you might need bespoke finishes, different keep/bolt options, alarms, or microswitch variants for monitoring.
