Specification Summary

Brand	Exidor
Product type	Touch Bar

Product Description

The Exidor 400 is a high-quality, surface-mounted touch bar panic latch designed for single timber doors up to 900mm wide. It provides a safe, reliable, and speedy exit in emergency situations. Pushing the touch bar retracts the deadlocking latch bolt instantly, allowing effortless egress. It features a patented lip design that prevents accidental or intentional jamming of the touch bar, ensuring maximum safety when it matters most.

This non-handed, fully reversible panic latch is manufactured in the UK and is certified to BS EN 1125 for panic exit devices. It is suitable for use on fire doors and can also be installed on steel or aluminium doors when paired with an appropriate keep (not supplied). With its durable silver enamelled finish, it offers a sleek and modern aesthetic suitable for public buildings, schools, hospitals, and commercial properties.

Technical Specifications

- **Brand:** Exidor
- **Manufacturer Reference:** 400
- **Standards:** BS EN 1125, CE Marked, Certifire accredited
- **Finish:** Silver Enamelled
- **Handing:** Reversible (Non-handed)
- **Maximum Door Width:** 900mm

Brand Profile

Exidor

Exidor is a UK panic-and-emergency-exit hardware brand best known for **push bars, push pads, and multi-point exit devices** used on fire exits and escape routes in commercial buildings. It's one of those "you don't notice it until you *really* need it" brands—built around reliable, standards-compliant egress hardware.

Exidor says it has been a leading manufacturer in this category for **around 90 years**, and trade/brand info places its establishment at **1931**.

Standards & compliance are central to the brand's positioning: Exidor panic and emergency exit devices are marketed as **CE marked** and **tested to EN 1125 (panic exit devices)** and **EN 179 (emergency exit devices)**—the core European standards that specifiers and installers care about for public buildings and controlled escape routes.

Ownership / group: Exidor was acquired by **ASSA ABLOY Opening Solutions UK & Ireland in 2018** (widely reported in trade press), and Companies House filings list **Assa Abloy Limited** as the controlling party.

Where it sits today: Exidor is now presented as a **range within the UNION family** (ASSA ABLOY's UK door hardware portfolio), and the brand is used across "real world" commercial projects where you might need bespoke finishes, different keep/bolt options, alarms, or microswitch variants for monitoring.
