Brand	Vanquish
Product type	Intumescent Strips & Seals

Product Description

The Vanquish FIRESTOP Self-Adhesive Universal Intumescent Multi-Point Lock Kit is designed to protect door ironmongery and prevent the spread of fire. It is an essential component when fireproofing properties, helping to maintain the integrity of fire-rated doors.

Manufactured in the UK from high-performance, 1mm thick flexible intumescent sheet, this kit features a self-adhesive backing for quick and easy installation. The sheet is designed with scored fold lines, allowing for a neat and simple full wraparound of the multi-point lock.

In the event of a fire, the intumescent material expands to many times its original volume. This rapid expansion seals any gaps around the lock, creating an effective barrier against heat and flames to protect the door's internal structure. It has been rigorously fire tested to BS EN 1634-1 and BS 476: Part 22 standards, making it suitable for both 30-minute and 60-minute fire door applications. Additionally, this kit is Secured by Design (SBD) approved, offering peace of mind for both safety and security.

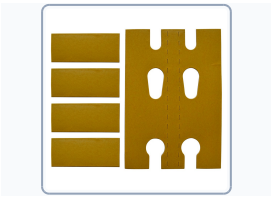

Technical Specifications

- **Brand:** Vanquish
- **Manufacturer Reference:** FS1265
- **Thickness:** 1mm
- **Width:** 54mm
- **Weight:** 100g
- **Fire Rating:** 30 to 60 minutes (1/2 - 1 hour)
- **Standards:** BS EN 1634-1, BS 476: Part 22, Secured by Design (SBD)
- **Pack Quantity:** 1

Key Features

- **High-Expansion Seal:** Expands to many times its original volume when heated, sealing gaps around the lock to prevent the passage of fire.
- **Simple Application:** Features a self-adhesive backing and scored fold lines for a quick, full wraparound installation.
- **Universal Design:** Designed to protect multi-point lock ironmongery on fire-rated doors.
- **UK Manufactured:** Proudly manufactured in the UK by Vanquish.
- **Dual Compatibility:** Suitable for both 30-minute and 60-minute fire door applications.
