Specification Summary

Brand	Frank Allart
Product type	Flush Bolts

Product Description

The Frank Allart 5640 Lever Action Flush Bolt is a premium architectural hardware solution designed for edge or face fitting into the first closing leaf of a double door set. Crafted with precision, this flush bolt provides a secure and discreet locking point, making it an ideal choice for both residential and commercial double doors.

This model features a robust 25mm width and a 152mm (15.2cm) length, finished in a high-quality satin chrome plating that complements modern interiors. The lever action mechanism is supported by high-quality internal coil springing, which ensures a smooth, positive, and reliable operation every time the bolt is engaged or retracted. With an 11mm diameter shoot and a 16mm length of throw, it delivers dependable strength and security.

Supplied as a single unit, this flush bolt is a durable and stylish addition to any double door configuration, offering the perfect blend of functionality and aesthetic appeal.

Brand Profile

Frank Allart

Frank Allart (Frank Allart & Company Ltd) is a heritage British manufacturer of **fine architectural hardware**—the posh end of **door, window and cabinet furniture** where the finish quality and the "feel" in-hand actually matter. The business began in **1914**, when **George Allart** started the company from a small workshop in **Birmingham**, and it has grown into a globally recognised name for traditionally crafted and design-led ironmongery.

Frank Allart is strongly associated with **British-made brassware and decorative hardware**, offering extensive ranges of **door knobs and levers, pull handles, cabinet knobs and pulls, flush pulls, bolts, knockers, stops**, and related fittings across a wide spread of styles and finishes.

On the corporate/history side, the company notes that after **62 years** in Allart family ownership it became part of the **Armac Brassfounders Group**, with investment following to support the business and workforce.
