Specification Summary

Brand	Gatemaster
Product type	Gate Locks

Product Description

The Gatemaster Select Pro Quick Exit Shroud (SBQES) is a robust security accessory designed to enhance the security of your gate. Engineered specifically for use with Gatemaster Select Pro quick exit locks and single-sided digital locks, this shroud prevents unauthorised access to the internal push pad or handle from the outside of the gate.

By shielding the exit mechanism, it stops intruders from reaching through or over the gate to operate the lock. The shroud is incredibly easy to fit and requires no separate fixings; it simply slides over the push pad and is secured in place when the lock itself is bolted to the gate frame. Finished in a durable black coating, it provides both physical protection and a neat, professional appearance.

Technical Specifications

- **Brand:** Gatemaster
- **Manufacturer Reference:** SBQES
- **Part Number:** L33140
- **Finish:** Black
- **Height:** 108mm
- **Depth:** 108mm
- **Width:** 150mm
- **Weight:** 500g
- **Pack Quantity:** 1

Key Features

- **Enhanced Security:** Prevents unauthorised access to the internal push pad or handle from the outside of the gate.
- **Easy Installation:** Requires no separate fixings; simply slides over the lock and bolts on during lock installation.
- **Compatibility:** Designed for use with Gatemaster Select Pro quick exit locks and single-sided digital locks.

Brand Profile

Gatemaster

Gatemaster is a UK manufacturer specialising in **gate locks and gate hardware** for **metal and wooden gates**, with a reputation built on one simple promise: **make it strong, make it weatherproof, and make it easy to fit** (because installers have better things to do than spend their afternoon arguing with a latch).

The company's story starts in **1995**, when founder **Simon** began making locks under the name **Signet Locks**, initially producing from his **garage in South London** before growing into a proper workshop and eventually scaling into a dedicated manufacturing operation. As the business expanded, the **manufacturing side became Gatemaster**, while **Signet** continued as the UK trading name in the same ecosystem.

Gatemaster's best-known product family is the **Superlock** series—bolt-on gate locks offered in variants like **key + handle**, **mechanical keypad (code) access**, and even **panic-exit** options—designed for heavy outdoor use and installer-friendly fitting. The company leans hard into "bolt-on simplicity": many of their locks are marketed as installable by drilling a small number of holes and fastening the unit to the gate frame.

Operationally, Gatemaster is based in **Bognor Regis, West Sussex** (with warehousing/distribution also referenced there), and the UK company record for **GATEMASTER LTD** lists its registered office at **Unit 5 Dickinson Place, Durban Road Industrial Estate, Bognor Regis, PO22 9QU**.
