Specification Summary

Brand	Gatemaster
Product type	Gatemaster

Product Description

The Gatemaster Superlock Bolt on Deadlock offers a secure and simple locking solution for metal gates, operated easily with the turn of a key from either side. Its slim 70mm wide lock case ensures it fits cleanly onto most gate profiles without looking bulky, while the robust stainless steel construction provides excellent durability against the elements.

Designed for maximum versatility, this deadlock is completely non-handed, making it ideal for both left and right-handed gates. It features an adjustable deadbolt that moves 15mm in length, allowing for precise fitting and alignment on site. Installation is straightforward and secure, with a bolt support plate included to ensure a solid and reliable fit.

This product is available in multiple options to suit different gate frame thicknesses, ranging from 10mm to 30mm (BD1030) up to 40mm to 60mm (BD4060). Please choose your required frame thickness and manufacturer reference from the options below.

Technical Specifications

- **Brand:** Gatemaster
- **Width:** 70mm
- **Depth:** 30mm
- **Screw Centres:** 140mm
- **Material:** Stainless Steel
- **Finish:** Black
- **Mechanism:** Euro Cylinder
- **Operation:** Key turn from both inside and outside
- **Handing:** Non-handed (fits left or right-handed gates)
- **Gate Frame Thickness:** Options available to suit 10mm to 30mm or 40mm to 60mm (please select below)
- **Manufacturer Reference:** BD1030 / BD4060 (please select below)
- **Weight:** 1.24kg
- **Guarantee:** 1 Year

Key Features

- **Double-Sided Key Access:** Simple deadlocking action operated by a key from both the inside and outside.
- **Slimline Design:** The 70mm wide lock case fits neatly onto most gate frames for a professional, unobtrusive look.

Brand Profile

Gatemaster

Gatemaster is a UK manufacturer specialising in **gate locks and gate hardware** for **metal and wooden gates**, with a reputation built on one simple promise: **make it strong, make it weatherproof, and make it easy to fit** (because installers have better things to do than spend their afternoon arguing with a latch).

The company's story starts in **1995**, when founder **Simon** began making locks under the name **Signet Locks**, initially producing from his **garage in South London** before growing into a proper workshop and eventually scaling into a dedicated manufacturing operation. As the business expanded, the **manufacturing side became Gatemaster**, while **Signet** continued as the UK trading name in the same ecosystem.

Gatemaster's best-known product family is the **Superlock** series—bolt-on gate locks offered in variants like **key + handle**, **mechanical keypad (code) access**, and even **panic-exit** options—designed for heavy outdoor use and installer-friendly fitting. The company leans hard into "bolt-on simplicity": many of their locks are marketed as installable by drilling a small number of holes and fastening the unit to the gate frame.

Operationally, Gatemaster is based in **Bognor Regis, West Sussex** (with warehousing/distribution also referenced there), and the UK company record for **GATEMASTER LTD** lists its registered office at **Unit 5 Dickinson Place, Durban Road Industrial Estate, Bognor Regis, PO22 9QU**.
