Specification Summary

Brand	Gatemaster
Product type	Gatemaster

Product Description

The Gatemaster Superlock Quick Exit Push Pad is designed to facilitate fast, convenient, and secure egress through gates. Featuring an easy-to-use push pad on the inside and no access from the outside, it is ideal for perimeter gates, emergency exits, or secure areas where exit-only access is required.

Crafted from high-quality stainless steel with a sleek black finish, this bolt-on lock is built to withstand harsh outdoor environments. It is marine-grade weather resistant and has been rigorously salt-spray tested for 1,000 hours to ensure long-lasting durability. The lock features an adjustable latchbolt to ensure a precise fit and reliable security on site.

This lock is highly versatile and is available in options to suit both left-handed and right-handed gates, as well as different gate frame thicknesses ranging from 10mm up to 60mm. Please choose your preferred handing, gate frame thickness, and manufacturer reference from the options below to ensure the perfect fit for your gate.

Technical Specifications

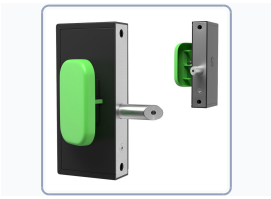

- **Brand:** Gatemaster
- **Material:** Stainless Steel
- **Finish:** Black
- **Case Width:** 70mm
- **Case Depth:** 30mm
- **Screw Centres:** 140mm
- **Gate Frame Thickness:** To suit 10mm to 30mm, or 40mm to 60mm gate frames (please select from the options below)
- **Handing:** Left Hand or Right Hand (please select from the options below)
- **Operation Inside:** Push pad
- **Operation Outside:** No access
- **Weight:** 1.38kg
- **Guarantee:** 1 Year

Key Features

- **Quick Exit Design:** Features an easy-to-use push pad on the inside for fast and convenient egress.
- **No Outside Access:** Restricts entry from the outside, making it ideal for secure exit-only gates.
- **Weather Resistant:** Marine-grade construction, salt-spray tested for 1,000 hours to ensure exceptional corrosion resistance.
- **Adjustable Latchbolt:** Allows for precise adjustment on site to ensure reliable latching and security.
- **Complete Kit:** Supplied complete with a bolt guide plate and gate post strike plate for straightforward installation.
- **Multiple Configurations:** Available in left-handed or right-handed options to suit gate frames from 10mm to 60mm (please select below).

Brand Profile

Gatemaster

Gatemaster is a UK manufacturer specialising in **gate locks and gate hardware** for **metal and wooden gates**, with a reputation built on one simple promise: **make it strong, make it weatherproof, and make it easy to fit** (because installers have better things to do than spend their afternoon arguing with a latch).

The company's story starts in **1995**, when founder **Simon** began making locks under the name **Signet Locks**, initially producing from his **garage in South London** before growing into a proper workshop and eventually scaling into a dedicated manufacturing operation. As the business expanded, the **manufacturing side became Gatemaster**, while **Signet** continued as the UK trading name in the same ecosystem.

Gatemaster's best-known product family is the **Superlock** series—bolt-on gate locks offered in variants like **key + handle**, **mechanical keypad (code) access**, and even **panic-exit** options—designed for heavy outdoor use and installer-friendly fitting. The company leans hard into "bolt-on simplicity": many of their locks are marketed as installable by drilling a small number of holes and fastening the unit to the gate frame.

Operationally, Gatemaster is based in **Bognor Regis, West Sussex** (with warehousing/distribution also referenced there), and the UK company record for **GATEMASTER LTD** lists its registered office at **Unit 5 Dickinson Place, Durban Road Industrial Estate, Bognor Regis, PO22 9QU**.
