Specification Summary

Brand	Geze
Product type	Overhead

Product Description

The GEZE TS3000 is a high-quality overhead cam door closer supplied as a body-only unit, designed for single-leaf internal doors up to 1,100mm in width. It is fully reversible, making it suitable for both left and right-hand mounted doors, and is appropriate for use on fire and smoke protection doors.

This versatile closer features an adjustable closing force of EN size 1 to 4, alongside fully adjustable latch action and closing speed to ensure smooth and controlled operation. Depending on your requirements, this door closer is available with or without an integrated backcheck function, which cushions forcefully opened doors.

We offer multiple options for this product, with variations in body dimensions (widths from 226mm to 260mm, heights from 50mm to 60mm, and depths from 40mm to 47mm), weight, and standards compliance (including BS EN 1154 and BS EN 1634-1). Please select your preferred variant from the options below.

Technical Specifications

- **Brand:** Geze
- **Manufacturer Reference:** TS3000V or TS3000BC (please choose from the options below)
- **Closing Force:** EN Size 1 to 4

Brand Profile

Geze

GEZE is a German, **family-owned** global manufacturer of **door, window, and safety technology**, best known in the trade for **door closers**, **automatic door systems** (sliding/swing/revolving), **window drives**, and **smoke & heat extraction (SHEV)** solutions used in modern building safety and automation.

Founded in **1863**, GEZE remains independently owned and headquartered in **Leonberg**, near Stuttgart - one of the reasons it's often described as a "proper engineering company" rather than a brand label slapped on a catalogue.

In practical terms, GEZE lives in the space where **comfort meets compliance**:

- **Door closing**: from standard overhead closers to integrated systems for higher-spec doors and fire/smoke applications.
- **Automatic entrances**: operators for swing and sliding doors used in public buildings, retail, airports, offices—accessibility and flow without sacrificing safety.
- **Safety + building automation**: electrically operated window systems for **natural ventilation** and for **smoke and heat extraction** in a fire, plus increasing emphasis on digital networking of doors/windows in "smart building" setups.

Scale-wise, GEZE states it has **3,000+ employees worldwide**, **37 subsidiaries**, and reported **€507m+ turnover (FY 2022/23) -** big enough to be everywhere, still small enough to feel focused.
