Brand	Geze
Product type	Overhead

Product Description

The GEZE TS4000 Wetroom Overhead Door Closer is a heavy-duty, surface-mounted rack and pinion door closer designed specifically for damp, humid, or aggressive environments. While offering the same high-performance functionality as the standard TS4000 model, this specialized wetroom version features enhanced corrosion resistance. It is equipped with a nickel-plated spindle, bearing shells, and stainless steel screw accessories, ensuring long-lasting durability in challenging conditions.

This universal, non-handed closer is suitable for both left and right-handed single-action doors up to 1,400mm in width and with a maximum weight of 100kg. It offers exceptional adjustability, allowing you to easily set the closing force (EN sizes 1 to 6), latching action, and hydraulic backcheck. For ultimate convenience, all adjustments can be made directly from the front of the device, which also features a visual closing force display.

Supplied complete with a flat form arm, fixing template, brackets, and screws, it provides a reliable and robust door-closing solution for leisure centres, swimming pools, and other wetroom applications.

Technical Specifications

- **Brand:** GEZE
- **Power Size:** EN 1 to 6 (Adjustable)
- **Max Door Width:** 1400mm
- **Max Door Weight:** 100kg
- **Handing:** Reversible (suitable for left and right-handed doors)
- **Adjustable Closing Speed:** Yes
- **Adjustable Latch Action:** Yes
- **Backcheck:** Yes

Brand Profile

Geze

GEZE is a German, **family-owned** global manufacturer of **door, window, and safety technology**, best known in the trade for **door closers**, **automatic door systems** (sliding/swing/revolving), **window drives**, and **smoke & heat extraction (SHEV)** solutions used in modern building safety and automation.

Founded in **1863**, GEZE remains independently owned and headquartered in **Leonberg**, near Stuttgart - one of the reasons it's often described as a "proper engineering company" rather than a brand label slapped on a catalogue.

In practical terms, GEZE lives in the space where **comfort meets compliance**:

- **Door closing**: from standard overhead closers to integrated systems for higher-spec doors and fire/smoke applications.
- **Automatic entrances**: operators for swing and sliding doors used in public buildings, retail, airports, offices—accessibility and flow without sacrificing safety.
- **Safety + building automation**: electrically operated window systems for **natural ventilation** and for **smoke and heat extraction** in a fire, plus increasing emphasis on digital networking of doors/windows in "smart building" setups.

Scale-wise, GEZE states it has **3,000+ employees worldwide**, **37 subsidiaries**, and reported **€507m+ turnover (FY 2022/23) -** big enough to be everywhere, still small enough to feel focused.
