Specification Summary

Brand	Geze
Product type	Overhead

Product Description

The GEZE TS4000S is a high-performance, heavy-duty overhead door closer designed for single-action internal and external doors. Suitable for doors up to 1,400mm in width and a maximum weight of 100kg, this versatile, non-handed closer can be installed on both left- and right-handed doors.

Equipped with an adjustable closing force of EN size 1 to 6, the TS4000S allows for precise, front-facing adjustments. It features a thermo-stabilised closing speed with a large optical display, an adjustable hydraulic latch action, and an integrated backcheck function to prevent damage from forcefully opened doors. The built-in adjustable delayed action (up to 30 seconds) makes it ideal for areas requiring barrier-free access or extra time for transit.

This closer is suitable for use on fire and smoke protection doors, offering up to a 120-minute fire rating. It is available in multiple finishes, weights, and standards configurations; please choose your preferred options from the selection below.

Technical Specifications

- **Power Size:** EN 1 to 6 (steplessly adjustable from the front)
- **Max Door Width:** 1400mm
- **Max Door Weight:** 100kg
- **Handing:** Reversible (suitable for left and right-handed doors)
- **Body Height:** 60mm
- **Body Depth:** 46mm
- **Finishes:** Available in Polished Brass, Satin Stainless Steel, and Silver (please select from the options below)
- **Standards:** BS EN 1154, BS EN 1634-1, CE Marked, and Certifire approved (varies by variant; please select from the options below)
- **Weight:** 1.2kg or 3.21kg (please select from the options below)

Key Features

- **Adjustable Delayed Action:** Delays closing by up to 30 seconds, ideal for accessibility and moving large items.
- **Integrated Backcheck:** Cushions forcefully thrown-open doors to protect walls and hinges.
- **Fully Adjustable Controls:** Front-adjustable closing speed, latching action, and closing force with a clear optical display.
- **Fire Rated:** Suitable for fire and smoke protection doors with up to a 120-minute fire rating.
- **Thermo-Stabilised Performance:** Consistent closing speed regardless of temperature fluctuations.
- **Reversible Design:** Universal fitting for hassle-free installation on both left and right-handed single-action doors.

Brand Profile

Geze

GEZE is a German, **family-owned** global manufacturer of **door, window, and safety technology**, best known in the trade for **door closers**, **automatic door systems** (sliding/swing/revolving), **window drives**, and **smoke & heat extraction (SHEV)** solutions used in modern building safety and automation.

Founded in **1863**, GEZE remains independently owned and headquartered in **Leonberg**, near Stuttgart - one of the reasons it's often described as a "proper engineering company" rather than a brand label slapped on a catalogue.

In practical terms, GEZE lives in the space where **comfort meets compliance**:

- **Door closing**: from standard overhead closers to integrated systems for higher-spec doors and fire/smoke applications.
- **Automatic entrances**: operators for swing and sliding doors used in public buildings, retail, airports, offices—accessibility and flow without sacrificing safety.
- **Safety + building automation**: electrically operated window systems for **natural ventilation** and for **smoke and heat extraction** in a fire, plus increasing emphasis on digital networking of doors/windows in "smart building" setups.

Scale-wise, GEZE states it has **3,000+ employees worldwide**, **37 subsidiaries**, and reported **€507m+ turnover (FY 2022/23) -** big enough to be everywhere, still small enough to feel focused.
