Product Description

The GreenteQ Gamma Half Euro Cylinder is a high-performance, budget-friendly 6-pin cylinder designed to offer reliable security for applications requiring single-sided key access, such as garage doors, padlocks, and key switches.

Manufactured to meet the rigorous BS EN 1303 standard, this cylinder features built-in anti-pick and anti-drill protection, ensuring dependable resistance against common attack methods. It is available in a range of sizes in both attractive bright nickel and classic brass finishes, both of which have been tested to BS EN 1670 Grade 3 for excellent corrosion resistance.

Each cylinder is supplied with three 'Q' branded keys as standard. For ultimate convenience, these half euro cylinders can be keyed alike with other cylinders in the GreenteQ Gamma range, including double cylinders and thumb turns, allowing you to operate multiple locks with a single key.

Technical Specifications

- **Cylinder Type:** Half Euro Profile Cylinder (Gamma range)
- **Number of Pins:** 6-pin mechanism
- **Standard:** BS EN 1303 (Classification 16000C62)

Brand Profile

Greenteq

greenteQ (often written **Greenteq**) is the **in-house window and door hardware brand of VBH**, created to give fabricators, installers and repair/maintenance teams a dependable “one brand” option across the everyday components that make doors and windows function properly. VBH launched greenteQ as its own hardware brand in **2009**, and it’s been expanding the range ever since.

greenteQ sits squarely in the trade world: products for **uPVC/PVCu, aluminium, timber/wood and composite** windows and doors, covering both new manufacture and remedial work. The catalogue spans **locking systems**, **multipoint locks**, **handles/furniture**, **hinges**, and a long list of ancillaries designed to be installer-friendly and consistent to spec.

A big part of the brand identity is that it’s VBH-backed: greenteQ customers are explicitly described as benefiting from **VBH’s international product know-how**, and VBH GB notes the UK has its own greenteQ design focus to meet market-specific requirements (like **suited furniture** expectations).

On the “security hardware” end, greenteQ also sells cylinders and higher-security components you’ll see in the door trade - e.g. the **Orion** euro cylinder is marketed as **TS007 3-Star (Kitemark) approved** in VBH communications and stockist listings.
