Product Description

The greenteQ Orion is a high-security, TS007 3-star Kitemark approved profile cylinder. If you require extra or replacement keys, our professional key cutting service provides genuine, high-quality Q-branded dimple keys cut precisely to your unique code.

How to Order

To ensure your keys are cut accurately and securely, please follow these steps:

1. **Locate Your Key Code:** Find the unique code stamped on your original key. This code will either begin or end with the letter 'V' (e.g., *V123456* or *123456V*).
2. **Enter the Code:** Type the code exactly as it appears into the box provided.
3. **Provide Your Password (If Registered):** If you registered your cylinder under the proteQ10 Key Security Scheme, you must provide your personal security password to authorise duplication. Enter your code followed by a hyphen and your password (e.g., *V912345 - Jasper*). If unregistered, simply enter the key code.
4. **Select Quantity:** Choose the number of keys you require and add them to your basket.

Security Tip: For peace of mind, we recommend having your keys delivered to an alternative address, such as your workplace or a family member.

Technical Specifications

- **Compatible Cylinder:** greenteQ Orion 3-Star TS007 profile cylinder
- **Key Type:** Genuine Q-branded dimple key
- **Code Format:** Code starting or ending with 'V'
- **Security Integration:** Works with the proteQ10 Key Security Scheme

Brand Profile

Greenteq

greenteQ (often written **Greenteq**) is the **in-house window and door hardware brand of VBH**, created to give fabricators, installers and repair/maintenance teams a dependable “one brand” option across the everyday components that make doors and windows function properly. VBH launched greenteQ as its own hardware brand in **2009**, and it’s been expanding the range ever since.

greenteQ sits squarely in the trade world: products for **uPVC/PVCu, aluminium, timber/wood and composite** windows and doors, covering both new manufacture and remedial work. The catalogue spans **locking systems**, **multipoint locks**, **handles/furniture**, **hinges**, and a long list of ancillaries designed to be installer-friendly and consistent to spec.

A big part of the brand identity is that it’s VBH-backed: greenteQ customers are explicitly described as benefiting from **VBH’s international product know-how**, and VBH GB notes the UK has its own greenteQ design focus to meet market-specific requirements (like **suited furniture** expectations).

On the “security hardware” end, greenteQ also sells cylinders and higher-security components you’ll see in the door trade - e.g. the **Orion** euro cylinder is marketed as **TS007 3-Star (Kitemark) approved** in VBH communications and stockist listings.
