Specification Summary

Brand	Hooply
Product type	Container

Product Description

The Hooply Container Window Shutter Flag Hinge is a robust, high-quality lift-off hinge designed specifically for anti-vandal window shutters, making it an ideal choice for shipping container window shutters. Crafted from durable stainless steel with a sleek satin finish, these hinges offer excellent weather resistance and long-lasting security.

These lift-off flag hinges are handed to suit either left-handed or right-handed configurations. When viewed from the outside, "Left Hand" refers to the left-hand leaf of the window shutter, while "Right Hand" refers to the right-hand leaf.

These hinges are available in both left-handed and right-handed options to suit your specific installation requirements. Please select your preferred handing from the options below.

Technical Specifications

- **Brand:** Hooply
- **Material:** Stainless Steel
- **Finish:** Satin Stainless Steel
- **Handing:** Left Hand or Right Hand (please select from the options below)
- **Weight:** 300g
- **Pack Quantity:** 1
- **Packaging:** Boxed
- **Manufacturer Reference:** SHUTTER-HINGE-LH / SHUTTER-HINGE-RH

Key Features

- **Anti-Vandal Design:** Specifically designed for anti-vandal window shutters, making them ideal for shipping containers.
- **Lift-Off Functionality:** Convenient lift-off flag hinge design for easy installation and maintenance.
- **Durable Construction:** Made from high-quality stainless steel to withstand harsh outdoor environments.
- **Handed Options:** Available in both left-hand and right-hand configurations to suit your specific setup.

Brand Profile

Hooply

HOOPLY is a specialist door-hardware brand that shows up a *lot* in the world of **steel security doors** and **shipping/container doors**. In the trade, HOOPLY is basically shorthand for that very specific ecosystem of **68mm-centre lockcases, handles, and multipoint "gearbox" setups** that you see on site cabins, compounds, plant rooms, and steel personnel doors.

What HOOPLY makes (the practical identity):

- **Multipoint centre cases / gearboxes** for steel doors and container door multi-lock systems (often described as "key operated latch + multiple deadbolts").
- **Door handle sets** designed around those systems, commonly taking a **euro cylinder**, and often featuring an internal **thumbturn/snib** for privacy/deadlocking functions.
- Associated **container/steel door hardware** like **hinges** (including stainless ball-bearing hinges with anti-knockout details) and other fittings.

Why HOOPLY is so common:

- It's become a de-facto standard in certain door types, where the key measurements recur constantly (e.g. **68mm centres** and common fixing patterns).
- It's very "trade reality"-driven: straightforward replacement parts, predictable fitment, and lots of off-the-shelf compatibility with steel door sets and container conversions.
