Brand	ICS
Product type	ICS

Product Description

The ICS 300BP Armature Mounting Plate is a robust, surface-mounted accessory designed specifically for securing mini magnetic lock armatures. Ideal for commercial and residential access control installations, this mounting plate provides a stable and reliable platform to ensure the precise alignment and optimal performance of your mini maglocks.

Manufactured from high-quality aluminium, the 300BP features a sleek satin anodised finish that offers excellent corrosion resistance while blending seamlessly with modern door frames. Its lightweight yet durable construction ensures long-lasting reliability, and the surface-mount design allows for a straightforward and efficient installation process.

Technical Specifications

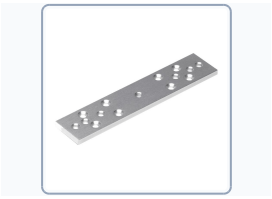

- **Brand:** ICS
- **Manufacturer Reference:** 300BP
- **Finish:** Satin Anodised Aluminium
- **Fitting:** Surface
- **Width:** 185mm

- **Depth:** 7mm
- **Weight:** 100g
- **Guarantee:** 1 Year

Key Features

- **Mini Magnet Compatibility:** Specifically designed as an armature mounting plate for mini magnetic locks
- **Durable Construction:** Made from high-quality aluminium with a satin anodised finish for enhanced durability and a professional look
- **Easy Surface Mounting:** Designed for quick and secure surface installation on a variety of door frames
- **Low-Profile Design:** Slim 7mm depth ensures a neat, unobtrusive installation that does not interfere with door operation

Brand Profile

ICS

ICS Security (ICS Security Solutions Ltd) is a UK access-control hardware brand and supplier focused on the “nuts and bolts” of electronic door control: **maglocks, electric locks/bolts, strikes, lock releases, and packaged locking kits** designed to make access-control installs cleaner and more reliable. They describe themselves as an access-control specialist founded in **2003**, with **20+ years** in the sector.

They operate from **Blisworth, Northamptonshire** (Units 1–2, JBJ Business Park, Northampton Road, NN7 3DW), supporting trade customers with a range that covers the common building blocks of access control systems.

Product-wise, ICS’s catalogue is very “installer reality”:

- **Magnetic locks** in multiple formats (standard, slimline/transom, stainless, monitored, with door status options), typically running **12–24V DC selectable** and specced by holding force (e.g., 600–1200 lbs and up).
- **Electric locks / bolts and locking kits**, including “compliant lock packages” that bundle the parts needed for controlled entry with free egress, calling out standards like **EN179 / EN1125** in their kit descriptions.
- A broader access-control “system parts” approach: they position the range as covering “all parts of access control systems,” aiming to let installers choose a complete solution from one source.
