Product Description

The ICS 300ZLDC is an architectural Z&L bracket designed specifically to fit ICS single mini magnetic locks. Engineered for inward-opening door applications, this high-quality bracket offers a clean, professional finish while providing multiple fitting options to suit your installation requirements.

Constructed from durable aluminium with a sleek satin anodised finish, this surface-mounted bracket ensures a secure and aesthetically pleasing installation. It includes architectural covers that neatly conceal the fixings, making it ideal for commercial and high-end residential access control setups.

Technical Specifications

- **Manufacturer:** ICS
- **Part Number:** L24139 (300ZLDC)
- **Material:** Aluminium
- **Finish:** Satin Anodised Aluminium
- **Fitting Type:** Surface mount
- **Handing:** Inward opening doors
- **Compatibility:** Designed for ICS single mini magnets
- **Dimensions:** Z Plates (160mm x 50mm), L Bracket (250mm x 30mm)
- **Weight:** 1.1kg
- **Guarantee:** 1 Year

Key Features

- **Architectural Design:** Features stylish covers that conceal fixings for a clean, professional appearance.
- **Versatile Fitting:** Provides multiple adjustment and mounting options to ensure a precise fit on inward-opening doors.
- **Durable Construction:** Made from robust, lightweight aluminium with a corrosion-resistant satin anodised finish.
- **Perfect Compatibility:** Specifically engineered to seamlessly house ICS single mini magnetic locks.

Brand Profile

ICS

ICS Security (ICS Security Solutions Ltd) is a UK access-control hardware brand and supplier focused on the “nuts and bolts” of electronic door control: **maglocks, electric locks/bolts, strikes, lock releases, and packaged locking kits** designed to make access-control installs cleaner and more reliable. They describe themselves as an access-control specialist founded in **2003**, with **20+ years** in the sector.

They operate from **Blisworth, Northamptonshire** (Units 1–2, JBJ Business Park, Northampton Road, NN7 3DW), supporting trade customers with a range that covers the common building blocks of access control systems.

Product-wise, ICS’s catalogue is very “installer reality”:

- **Magnetic locks** in multiple formats (standard, slimline/transom, stainless, monitored, with door status options), typically running **12–24V DC selectable** and specced by holding force (e.g., 600–1200 lbs and up).
- **Electric locks / bolts and locking kits**, including “compliant lock packages” that bundle the parts needed for controlled entry with free egress, calling out standards like **EN179 / EN1125** in their kit descriptions.
- A broader access-control “system parts” approach: they position the range as covering “all parts of access control systems,” aiming to let installers choose a complete solution from one source.
