Specification Summary

Brand	ICS
Product type	ICS

Product Description

The ICS A500ZL Standard Z&L Bracket is designed specifically for mounting ICS standard magnetic locks (maglocks) onto inward-opening doors. This high-quality bracket set provides a reliable and adjustable solution, ensuring the armature plate and magnet align perfectly for secure, surface-mounted installations.

Manufactured from durable, lightweight aluminium with a professional satin anodised finish, this bracket offers excellent strength and corrosion resistance. The kit includes a robust L-bracket for mounting the magnet to the door frame, alongside adjustable Z-plates to secure the armature plate to the door leaf. This configuration provides multiple fitting options to accommodate various door and frame depths, making it a versatile choice for commercial and residential access control systems.

Please note that this bracket is designed specifically for use with ICS Standard Magnets and is suitable for surface-mounted, inward-opening applications.

Technical Specifications

- **Brand:** ICS
- **Manufacturer Reference:** A500ZL
- **Material:** Aluminium
- **Finish:** Satin Anodised Aluminium
- **Fitting:** Surface mounted
- **Handing:** Inward opening
- **L-Bracket Dimensions:** 266mm x 46mm
- **Z-Plate Dimensions:** 160mm x 63.5mm
- **Weight:** 1.2kg
- **Guarantee:** 1 Year

Key Features

- **Inward Opening Compatibility:** Specifically engineered to facilitate the installation of standard maglocks on inward-opening doors.
- **Durable Construction:** Made from high-grade aluminium with a satin anodised finish for long-lasting durability and a clean aesthetic.
- **Flexible Fitting:** Provides multiple adjustment options to ensure precise alignment of the magnet and armature plate.
- **Designed for ICS Standard Magnets:** Offers a perfect fit and seamless integration with the ICS standard magnetic lock range.

Brand Profile

ICS

ICS Security (ICS Security Solutions Ltd) is a UK access-control hardware brand and supplier focused on the “nuts and bolts” of electronic door control: **maglocks, electric locks/bolts, strikes, lock releases, and packaged locking kits** designed to make access-control installs cleaner and more reliable. They describe themselves as an access-control specialist founded in **2003**, with **20+ years** in the sector.

They operate from **Blisworth, Northamptonshire** (Units 1–2, JBJ Business Park, Northampton Road, NN7 3DW), supporting trade customers with a range that covers the common building blocks of access control systems.

Product-wise, ICS’s catalogue is very “installer reality”:

- **Magnetic locks** in multiple formats (standard, slimline/transom, stainless, monitored, with door status options), typically running **12–24V DC selectable** and specced by holding force (e.g., 600–1200 lbs and up).
- **Electric locks / bolts and locking kits**, including “compliant lock packages” that bundle the parts needed for controlled entry with free egress, calling out standards like **EN179 / EN1125** in their kit descriptions.
- A broader access-control “system parts” approach: they position the range as covering “all parts of access control systems,” aiming to let installers choose a complete solution from one source.
