Specification Summary

Brand	ICS
Product type	ICS

Product Description

The ICS A-U320M-DS is a high-quality surface armature housing designed specifically to accommodate ICS mini magnetic locks featuring a door status monitoring function. Manufactured from durable aluminium with a professional satin anodised finish, this housing provides a clean, secure, and aesthetically pleasing solution for mounting the armature plate.

This surface-mount housing is ideal for installations where through-bolting is not possible or permitted - such as on certain fire doors - or simply where a neat, surface-mounted aesthetic is preferred. It simplifies the installation process, ensuring the armature plate remains securely positioned for reliable, long-term magnetic lock alignment and operation.

Technical Specifications

- **Brand:** ICS
- **Manufacturer Reference:** A-U320M-DS
- **Material:** Aluminium
- **Finish:** Satin Anodised Aluminium
- **Fitting:** Surface mount
- **Compatibility:** Suits ICS mini magnets with door status function
- **Width:** 203mm
- **Height:** 45mm
- **Depth:** 17mm
- **Weight:** 500g
- **Guarantee:** 1 Year

Key Features

- **Surface Mount Design:** Enables straightforward surface installation of the armature plate, eliminating the need for through-bolting.
- **Premium Aluminium Construction:** Built from robust aluminium with a sleek satin anodised finish for a clean, modern appearance.
- **Door Status Compatibility:** Specifically engineered to fit ICS mini series maglocks equipped with door status monitoring.
- **Clean Aesthetics:** Neatly conceals the armature plate and fixings for a professional, tamper-resistant finish.

Brand Profile

ICS

ICS Security (ICS Security Solutions Ltd) is a UK access-control hardware brand and supplier focused on the “nuts and bolts” of electronic door control: **maglocks, electric locks/bolts, strikes, lock releases, and packaged locking kits** designed to make access-control installs cleaner and more reliable. They describe themselves as an access-control specialist founded in **2003**, with **20+ years** in the sector.

They operate from **Blisworth, Northamptonshire** (Units 1–2, JBJ Business Park, Northampton Road, NN7 3DW), supporting trade customers with a range that covers the common building blocks of access control systems.

Product-wise, ICS’s catalogue is very “installer reality”:

- **Magnetic locks** in multiple formats (standard, slimline/transom, stainless, monitored, with door status options), typically running **12–24V DC selectable** and specced by holding force (e.g., 600–1200 lbs and up).
- **Electric locks / bolts and locking kits**, including “compliant lock packages” that bundle the parts needed for controlled entry with free egress, calling out standards like **EN179 / EN1125** in their kit descriptions.
- A broader access-control “system parts” approach: they position the range as covering “all parts of access control systems,” aiming to let installers choose a complete solution from one source.
