Specification Summary

Brand	ICS
Product type	ICS

Product Description

The ICS A-U520S-DS is a high-quality surface armature housing designed specifically to accommodate ICS Standard Series magnetic locks featuring a door status function. This robust housing provides a neat, secure, and professional surface-mounted solution for your access control installations.

Constructed from durable aluminium with a clean satin anodised finish, it is engineered to withstand daily use while maintaining a sleek aesthetic. It is the ideal accessory for installers looking to mount standard-sized ICS armatures on doors where flush mounting is not possible or practical.

Technical Specifications

- **Brand:** ICS
- **Manufacturer Reference:** A-U520S-DS
- **Material:** Aluminium
- **Finish:** Satin Anodised Aluminium
- **Fitting Type:** Surface mount
- **Compatibility:** Suits ICS Standard Series magnets with door status function
- **Width:** 213mm
- **Height:** 68mm
- **Depth:** 19mm
- **Weight:** 700g
- **Pack Quantity:** 1
- **Guarantee:** 1 Year

Key Features

- **Tailored Compatibility:** Specifically designed to suit ICS Standard Series magnets with door status monitoring.
- **Durable Construction:** Manufactured from high-grade aluminium for long-lasting reliability.
- **Sleek Aesthetics:** Satin anodised aluminium finish offers a clean, professional look that blends with modern commercial doors.

Brand Profile

ICS

ICS Security (ICS Security Solutions Ltd) is a UK access-control hardware brand and supplier focused on the “nuts and bolts” of electronic door control: **maglocks, electric locks/bolts, strikes, lock releases, and packaged locking kits** designed to make access-control installs cleaner and more reliable. They describe themselves as an access-control specialist founded in **2003**, with **20+ years** in the sector.

They operate from **Blisworth, Northamptonshire** (Units 1–2, JBJ Business Park, Northampton Road, NN7 3DW), supporting trade customers with a range that covers the common building blocks of access control systems.

Product-wise, ICS’s catalogue is very “installer reality”:

- **Magnetic locks** in multiple formats (standard, slimline/transom, stainless, monitored, with door status options), typically running **12–24V DC selectable** and specced by holding force (e.g., 600–1200 lbs and up).
- **Electric locks / bolts and locking kits**, including “compliant lock packages” that bundle the parts needed for controlled entry with free egress, calling out standards like **EN179 / EN1125** in their kit descriptions.
- A broader access-control “system parts” approach: they position the range as covering “all parts of access control systems,” aiming to let installers choose a complete solution from one source.
