Specification Summary

Brand	ICS
Product type	Door Loop

Product Description

The ICS FR-DL350 Fire Rated Door Loop is a robust, surface-mounted armoured cable transfer designed to protect wiring as it passes between a door frame and the door leaf. Ideal for access control systems, this door loop prevents cables from being pinched, cut, or tampered with, ensuring the ongoing reliability of your electronic security setup.

Constructed with durability in mind, it features a 40cm armoured cable and is finished in a sleek Satin Anodised Aluminium to complement modern architectural hardware. Crucially, the FR-DL350 is fully fire tested to BS EN 1634, making it suitable for use on both FD30 and FD60 fire doors. This ensures compliance with strict UK fire safety standards without compromising on security or cable protection.

Technical Specifications

- **Brand:** ICS
- **Manufacturer Reference:** FR-DL350
- **Part Number:** L30079
- **Cable Length:** 40cm (400mm)
- **Finish:** Satin Anodised Aluminium

- **Fitting:** Surface mounted
- **Fire Tested:** Yes, to BS EN 1634
- **Fire Rating:** Suitable for FD30 and FD60 applications (1-hour fire certificate)
- **Weight:** 700g
- **Pack Quantity:** 1

Key Features

- **Armoured Protection:** Heavy-duty armoured cable prevents pinching, cutting, and tampering of vital wiring.
- **Fire Safety Compliant:** Tested to BS EN 1634 standards, making it safe for installation on FD30 and FD60 fire doors.
- **Surface Mounted:** Simple and quick surface-mount installation on the door and frame.
- **Durable Finish:** Satin Anodised Aluminium finish provides a clean, professional look that resists wear.

Brand Profile

ICS

ICS Security (ICS Security Solutions Ltd) is a UK access-control hardware brand and supplier focused on the “nuts and bolts” of electronic door control: **maglocks, electric locks/bolts, strikes, lock releases, and packaged locking kits** designed to make access-control installs cleaner and more reliable. They describe themselves as an access-control specialist founded in **2003**, with **20+ years** in the sector.

They operate from **Blisworth, Northamptonshire** (Units 1–2, JBJ Business Park, Northampton Road, NN7 3DW), supporting trade customers with a range that covers the common building blocks of access control systems.

Product-wise, ICS’s catalogue is very “installer reality”:

- **Magnetic locks** in multiple formats (standard, slimline/transom, stainless, monitored, with door status options), typically running **12–24V DC selectable** and specced by holding force (e.g., 600–1200 lbs and up).
- **Electric locks / bolts and locking kits**, including “compliant lock packages” that bundle the parts needed for controlled entry with free egress, calling out standards like **EN179 / EN1125** in their kit descriptions.
- A broader access-control “system parts” approach: they position the range as covering “all parts of access control systems,” aiming to let installers choose a complete solution from one source.
