Specification Summary

Brand	ICS
Product type	ICS

Product Description

The ICS U300AL Mini Adjustable L Bracket is a robust and reliable mounting accessory designed specifically for use with ICS Mini Magnets. It provides an ideal solution for outward-opening door applications where restricted space or frame configurations prevent the electromagnetic lock from being mounted directly to the door head.

Manufactured from high-quality aluminium with a professional Satin Anodised Aluminium (SAA) finish, this bracket ensures a secure, stable, and clean installation. It is surface-mounted and adjustable, allowing installers to achieve precise alignment between the magnet and the armature plate for optimal holding force. Whether you are working on a new access control installation or retrofitting an existing system, the U300AL offers the durability and flexibility required for commercial and residential environments.

Technical Specifications

- **Brand:** ICS
- **Manufacturer Reference:** U300AL
- **Material:** Aluminium
- **Finish:** Satin Anodised Aluminium (SAA)

- **Fitting:** Surface mounted
- **Handing:** Outward opening
- **Compatibility:** Designed to suit ICS Mini Magnets
- **Dimensions:** 250mm (Width) x 48mm (Height) x 30mm (Depth)
- **Weight:** 200g
- **Pack Quantity:** 1

Key Features

- **Space-Saving Solution:** Ideal for outward-opening doors with restricted frame space where direct mounting to the door head is not possible.
- **Adjustable Design:** Allows for precise alignment of the mini magnet to maintain maximum holding force and system security.
- **Durable Construction:** Made from strong, corrosion-resistant aluminium for long-lasting reliability.
- **Sleek Aesthetics:** Satin Anodised Aluminium finish complements modern commercial and residential interiors.
- **Easy Installation:** Surface-mounted design simplifies the fitting process for security installers and locksmiths.
- **Peace of Mind:** Backed by a 1-year manufacturer's guarantee.

Brand Profile

ICS

ICS Security (ICS Security Solutions Ltd) is a UK access-control hardware brand and supplier focused on the “nuts and bolts” of electronic door control: **maglocks, electric locks/bolts, strikes, lock releases, and packaged locking kits** designed to make access-control installs cleaner and more reliable. They describe themselves as an access-control specialist founded in **2003**, with **20+ years** in the sector.

They operate from **Blisworth, Northamptonshire** (Units 1–2, JBJ Business Park, Northampton Road, NN7 3DW), supporting trade customers with a range that covers the common building blocks of access control systems.

Product-wise, ICS’s catalogue is very “installer reality”:

- **Magnetic locks** in multiple formats (standard, slimline/transom, stainless, monitored, with door status options), typically running **12–24V DC selectable** and specced by holding force (e.g., 600–1200 lbs and up).
- **Electric locks / bolts and locking kits**, including “compliant lock packages” that bundle the parts needed for controlled entry with free egress, calling out standards like **EN179 / EN1125** in their kit descriptions.
- A broader access-control “system parts” approach: they position the range as covering “all parts of access control systems,” aiming to let installers choose a complete solution from one source.
