Specification Summary

Brand	ICS
Product type	ICS

Product Description

The ICS U320M Armature Housing is a premium surface-mounted housing designed specifically for use with ICS Mini Magnets. This housing allows the armature plate to be surface-mounted using screw fixings, completely omitting the need for a through-bolt. This makes it an essential accessory when installing magnetic locks on fire doors where bolt-through fixing is not permitted or compliant.

Crafted from lightweight yet durable aluminium with a professional Satin Anodised Aluminium finish, the U320M provides a clean, aesthetically pleasing look that blends seamlessly into modern commercial and residential environments.

Technical Specifications

- **Brand:** ICS
- **Manufacturer Reference:** U320M
- **Material:** Aluminium
- **Finish:** Satin Anodised Aluminium
- **Fitting:** Surface mount
- **Width:** 17.5cm

- **Depth:** 15mm
- **Weight:** 200g
- **Compatibility:** Designed to suit ICS Mini Magnets
- **Guarantee:** 1 Year

Key Features

- **Surface Mount Design:** Allows the armature plate to be surface-mounted with screw fixings, eliminating the need for a through-bolt.
- **Fire Door Compliant:** Ideal for installations on fire doors where bolt-through fixing is not compliant or desired.
- **Durable Construction:** Made from high-quality aluminium for long-lasting performance and corrosion resistance.
- **Aesthetic Finish:** Features a clean Satin Anodised Aluminium finish to complement modern door hardware.

Brand Profile

ICS

ICS Security (ICS Security Solutions Ltd) is a UK access-control hardware brand and supplier focused on the “nuts and bolts” of electronic door control: **maglocks, electric locks/bolts, strikes, lock releases, and packaged locking kits** designed to make access-control installs cleaner and more reliable. They describe themselves as an access-control specialist founded in **2003**, with **20+ years** in the sector.

They operate from **Blisworth, Northamptonshire** (Units 1–2, JBJ Business Park, Northampton Road, NN7 3DW), supporting trade customers with a range that covers the common building blocks of access control systems.

Product-wise, ICS’s catalogue is very “installer reality”:

- **Magnetic locks** in multiple formats (standard, slimline/transom, stainless, monitored, with door status options), typically running **12–24V DC selectable** and specced by holding force (e.g., 600–1200 lbs and up).
- **Electric locks / bolts and locking kits**, including “compliant lock packages” that bundle the parts needed for controlled entry with free egress, calling out standards like **EN179 / EN1125** in their kit descriptions.
- A broader access-control “system parts” approach: they position the range as covering “all parts of access control systems,” aiming to let installers choose a complete solution from one source.
