Specification Summary

Brand	ILS
Product type	Bullet Locks

Product Description

The ILS FDM007-1 Round Face Bullet Lock is manufactured by Italian Locking Systems (ILS) and is specifically designed to suit the most popular styles of roller shutters. It features a robust 5-pin locking mechanism, providing reliable security for commercial premises, garages, and shopfronts.

Designed for ease of use, the key is only removable when the lock is in the fully locked position, ensuring that your roller shutters are never left unsecured by accident. The lock is supplied with two keys as standard and features a high-quality nickel-plated cylinder finish for excellent durability and corrosion resistance.

This bullet lock is available in multiple configurations to suit your security requirements. You can choose between Keyed To Differ (where each lock has its own unique key) or Keyed Alike (where multiple locks can be operated by the same key) options. The total length of the unit is available in either 90mm or 91mm depending on your selection. Please choose your preferred keying option, length, manufacturer reference, and barcode from the options below.

Technical Specifications

- **Brand:** ILS (Italian Locking Systems)
- **Cylinder Diameter:** 25mm
- **Cylinder Finish:** Nickel Plated

- **Housing Projection:** 35mm
- **Pin Length:** 49mm
- **Total Length:** 90mm or 91mm (please choose from the options below)

Brand Profile

ILS

ILS (Italian Locking Systems) is a UK trade security brand best known for **heavy-duty locking products** aimed at two very specific, very real-world sectors: the **roller shutter trade** and the **container hire / site security** world. In other words: if it's metal, outdoors, and someone's trying to defeat it with an angle grinder and bad intentions, ILS is probably in the conversation.

ILS **started trading in 1987**, initially selling roller shutter locks, padlocks and shutter components, and later became affiliated members of the **British Blind and Shutter Association (BBSA)**.

What they're known for

ILS built its name on **roller shutter locking** and the hardware that goes with it:

- **Bullet locks** for roller shutters (common models like the **FDM007-1** round-face style), typically sold with features like **5-pin locking** and key removal only in the locked position.
- **Central shutter locks / espagnolette-style locks** (including "Prefer" variants that accept a **Euro cylinder**, useful when you want to standardise keying).
- Trade channels also position ILS as a major stockist/supplier for **container padlocks, bullet locks, guide locks, ground units**, and related site-security components.
