Specification Summary

Brand	ILS
Product type	Bullet Locks

Product Description

The ILS FDM005 is a high-quality oval bullet lock designed to suit the most popular styles of roller shutters. Ideal for securing commercial and industrial premises, this lock provides robust physical security for your shutter doors.

For added safety and peace of mind, the key is removable in the locked position only, preventing the shutter from being left unlocked. This versatile lock is available in multiple configurations, including options with the housing supplied, and a choice of finishes, lengths, and keying types.

Please select your required finish, length, pin length, and keying option from the selection below.

Technical Specifications

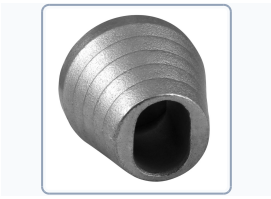

- **Brand:** ILS
- **Body Material:** Brass
- **Cylinder Diameter:** 22mm x 15mm (Oval)
- **Finish:** Chrome Plated, Polished Brass, or Silver (please choose from the options below)
- **Cylinder Finish:** Chrome Plated or Polished Brass (please choose from the options below)
- **Keying:** Keyed Alike or Keyed To Differ (please choose from the options below)

Brand Profile

ILS

ILS (Italian Locking Systems) is a UK trade security brand best known for **heavy-duty locking products** aimed at two very specific, very real-world sectors: the **roller shutter trade** and the **container hire / site security** world. In other words: if it's metal, outdoors, and someone's trying to defeat it with an angle grinder and bad intentions, ILS is probably in the conversation.

ILS **started trading in 1987**, initially selling roller shutter locks, padlocks and shutter components, and later became affiliated members of the **British Blind and Shutter Association (BBSA)**.

What they're known for

ILS built its name on **roller shutter locking** and the hardware that goes with it:

- **Bullet locks** for roller shutters (common models like the **FDM007-1** round-face style), typically sold with features like **5-pin locking** and key removal only in the locked position.
- **Central shutter locks / espagnolette-style locks** (including "Prefer" variants that accept a **Euro cylinder**, useful when you want to standardise keying).
- Trade channels also position ILS as a major stockist/supplier for **container padlocks, bullet locks, guide locks, ground units**, and related site-security components.
