Specification Summary

Brand	ILS
Product type	Shutter Locks

Product Description

The ILS Prefer Extra Slimline 3227 Centre Shutter Lock is a specialised, narrow-profile espagnolette lock manufactured by Italian Locking Systems. Designed primarily for window roller shutters, its ultra-slim 31mm body height makes it the ideal choice for installations where space within the shutter slats or frame is highly restricted.

Constructed with a robust galvanised steel case and a polished brass cylinder, this centre shutter lock provides reliable security and smooth operation. It is designed to lock and unlock from both the inside and outside, offering versatile access. A simple 180-degree turn of the key fully extends the locking bars to secure the shutter in place. The lock is supplied complete with two keys, ready for installation.

Technical Specifications

- **Brand:** ILS
- **Manufacturer Reference:** ILS.3227
- **Body Length:** 190mm
- **Body Height:** 31mm
- **Extended Length:** 210mm
- **Pin Centres:** 120mm (closed) / 186mm (extended)

- **Cylinder Diameter:** 25mm
- **Cylinder Projection:** 10mm

Brand Profile

ILS

ILS (Italian Locking Systems) is a UK trade security brand best known for **heavy-duty locking products** aimed at two very specific, very real-world sectors: the **roller shutter trade** and the **container hire / site security** world. In other words: if it's metal, outdoors, and someone's trying to defeat it with an angle grinder and bad intentions, ILS is probably in the conversation.

ILS **started trading in 1987**, initially selling roller shutter locks, padlocks and shutter components, and later became affiliated members of the **British Blind and Shutter Association (BBSA)**.

What they're known for

ILS built its name on **roller shutter locking** and the hardware that goes with it:

- **Bullet locks** for roller shutters (common models like the **FDM007-1** round-face style), typically sold with features like **5-pin locking** and key removal only in the locked position.
- **Central shutter locks / espagnolette-style locks** (including "Prefer" variants that accept a **Euro cylinder**, useful when you want to standardise keying).
- Trade channels also position ILS as a major stockist/supplier for **container padlocks, bullet locks, guide locks, ground units**, and related site-security components.
