Specification Summary

Brand	Ingersoll
Product type	Rim Cylinders

Product Description

The Ingersoll SC1 Rim Cylinder is a high-security replacement cylinder designed specifically for use with the Ingersoll rim lock range, including the popular SC71 and SC73 nightlatches. If you need to replace your keys due to loss or theft, or simply want to refresh your security, this cylinder provides a direct, like-for-like replacement.

Featuring a robust 10-lever security mechanism, this cylinder offers excellent protection against picking and manipulation. It is supplied with three keys as standard and is keyed to differ. Please note that this cylinder is designed exclusively for Ingersoll locks and is not compatible with standard rim locks.

This cylinder is available in a choice of finishes - including Chrome Plated, Polished Brass, and Satin Chrome - with weights ranging from 300g to 670g, and various barcodes. Please select your preferred options from the list below.

Technical Specifications

- **Brand:** Ingersoll
- **Manufacturer Reference:** SC1
- **Cylinder Type:** Rim Cylinder
- **Cylinder System:** Ingersoll 10 Lever
- **Mechanism:** 10 Lever
- **Keys Supplied:** 3

Brand Profile

Ingersoll

Ingersoll is a historic **British high-security lock brand**, best known for its distinctive **rim nightlatches** and the long-running **SC71**—a “signature” product whose chunky look and unique key profile are basically part of the brand’s identity. Ingersoll Locks Limited states it was **founded in 1949** and has focused on security-led lock design ever since.

A key part of the origin story centers on inventor **Jack W. Taylor**, who (according to a detailed brand history) conceived the idea for a **ten-lever cylinder** in **1944**, and the Ingersoll range grew from that high-security cylinder concept.

In today’s market, “Ingersoll” is still used as shorthand for **serious, mechanical, front-door security**—the kind of lock people pick when they want something robust, familiar to locksmiths, and not dependent on batteries, apps, or vibes.

Ownership-wise, the **Ingersoll trademark/manufacturer is described as being owned by the ASSA ABLOY Group** (noting this is stated by a specialist distributor/reseller who explicitly separates themselves from the trademark owner).
