Product Description

The **Intratone Keypad HF Mini Kit (06-0130-EU)** is a complete, professional-grade access control solution designed for straightforward installation and seamless remote management. Ideal for managing single doors or gates in residential apartment blocks, multi-dwelling properties, and commercial sites, this kit includes a compact, surface-mounted mini coded keypad and a GSM/GPRS data module with a built-in 868MHz RF receiver.

One of the standout benefits of this system is the inclusion of **10 years of free, unlimited data syncing and updates**. This allows property managers and landlords to configure, program, and manage the system remotely in real time via the free Intratone online management portal. There is no need to visit the site to add or remove users, adjust access time slots, or view event logs.

The system is highly scalable, supporting up to 10,000 remote fobs or transmitters and storing up to 80 unique keypad codes. Constructed from durable Zamac with a sleek black and silver finish, the keypad offers robust, vandal-resistant performance with an IP54 and IK07 rating.

Technical Specifications

- **Brand:** Intratone
