Product type	Key Cabinet

Product Description

The KEYTRACKER 10 Key System (M10) is a highly effective, mechanical "peg-in, peg-out" key management solution designed to secure and track up to 10 keys without the need for power or complex software. It is ideal for businesses, workshops, and facilities requiring a simple, instant visual audit of who has taken which keys.

The system operates on a straightforward mechanical principle: keys are secured to the white retention pegs using the provided anti-tamper seals. To release a key, an authorised user must insert their personalised, coloured access peg into the board. This releases the key and locks the user's access peg in place, providing an immediate visual record of who is currently in possession of that key. When the key is returned, the retention peg is locked back into the board, allowing the user to retrieve their access peg.

This complete, boxed system comes with everything needed to get started, including 10 white retention pegs, 5 different coloured access pegs, 10 matching numbered port stickers, 12 flat wire anti-tamper key seals, and a handy seal cutter.

Technical Specifications

- **Brand:** Keytracker
- **Manufacturer Reference:** M10
- **Part Number:** L31540
- **Finish:** Black
- **Key Capacity:** 10
- **Weight:** 2.07kg
- **Packaging:** Boxed

Key Features

- **Instant Visual Audit:** The mechanical "peg-in, peg-out" system immediately shows who has taken which key.
- **Power-Free Operation:** Requires no electrical connection, software, or ongoing licensing fees.
- **Complete Starter Kit:** Supplied with 10 white retention pegs, 5 different coloured access pegs, and 10 matching numbered port stickers.
- **Anti-Tamper Security:** Includes 12 flat wire anti-tamper key seals and a dedicated seal cutter to secure keys to the pegs.
- **Robust Construction:** Durable design suitable for busy commercial environments.
