Brand	Keytracker
Product type	Key Cabinet

Product Description

The **Keytracker Single Key Unit** (T1) provides a simple and highly effective mechanical solution for securing, storing, and tracking a single set of keys, tools, or equipment. Operating on a secure peg-in, peg-out system, it ensures complete accountability in the workplace.

To release the secured item from the unit, an authorised user must insert their unique, colour-coded access peg. This access peg remains locked in place until the item and its retention peg are returned, allowing management and staff to see at a glance who currently has possession of the keys or equipment.

This comprehensive single-unit kit comes complete with everything needed to establish a secure tracking point, including a white retention peg, five different coloured access pegs for individual users, and anti-tamper security seals. It is the perfect entry-level or add-on solution for workshops, offices, and vehicle fleet management.

Technical Specifications

- **Brand:** Keytracker
- **Manufacturer Reference:** T1
- **Finish:** Black
- **Capacity:** 1 key set / tool / equipment item
- **Weight:** 133g
- **Pack Quantity:** 1
- **Barcode:** 5056240119649

Key Features

- **Peg-In, Peg-Out System:** Ensures clear accountability by locking the user's unique access peg in place when the keys or equipment are removed.
- **Complete Kit:** Supplied with 1 white retention peg and 5 different coloured access pegs for multiple authorised users.
- **Anti-Tamper Security:** Includes 1 x hexagonal flexible wire seal and 1 x flat wire anti-tamper key seal to prevent unauthorised removal.
- **Easy Identification:** Comes with 7 matching numbered port and seal stickers, plus 1 white writeable pair for clear labelling.
- **Versatile Use:** Ideal for securing and tracking keys, shared tools, or specialised equipment.
