Product Description

The Lowe & Fletcher 0201 Mini Nut Fix Camlock is a highly compact and reliable locking solution, ideal for securing small enclosures such as post boxes, lockers, cupboards, and medical furniture. With an 8mm body length, this miniature camlock is designed for applications where space is at a premium but reliable security is still required.

Featuring a durable chrome-plated finish and a conical head shape, this lock offers both professional aesthetics and robust performance. It utilizes a secure nut fixing mechanism for a straightforward and stable installation. The lock operates with a 180° anti-clockwise movement and is keyed to differ, ensuring individual security for your cabinets or lockers. Each lock is supplied complete with a 30mm straight cam and two keys.

Brand Profile

Lowe & Fletcher

Lowe & Fletcher is a long-established British manufacturer of **locking systems for industry**, best known for high-volume, application-specific locks like **camlocks, quarter-turns, compression locks, and electronic/keypad solutions** used on things like **enclosures, cabinets, lockers, post/parcel units, and industrial equipment**. They're a **sixth-generation, family-owned** business with roots going back to **1889**, when **John Lowe and Thomas Fletcher** founded a lockmaking firm in **Willenhall** in the Black Country—one of the historic heartlands of UK lockmaking.

Today, Lowe & Fletcher forms part of the **Lowe & Fletcher Group**, which describes two main divisions: **Locking Systems** (industrial/OEM locks) and **Fire Safety** (smoke and fire containment systems).

Operationally, their Locking Systems division includes UK operations based around the West Midlands (e.g., **Wednesbury, WS10 7DE**) and they state they have multiple operational sites across Europe and the US to serve local and specialist markets.

On the product side, their camlock range alone spans **mini camlocks, standard camlocks, slamlocks, and IP-rated water-resistant variants** (with application-driven options like tool/coin operation and different cam geometries).
