Product Description

The Lowe & Fletcher 2105 Nut Fix 20mm Camlock is a reliable, high-quality locking solution designed for a wide range of applications, including postboxes, lockers, and metal or wooden cabinets. Featuring a robust nut fixing mechanism, this camlock ensures a secure and stable installation on various panel thicknesses.

With a bright chrome finish and a classic round face, the lock offers a clean, professional appearance that blends seamlessly with modern furniture and enclosures. It is supplied keyed to differ with up to 2,000 different lock combinations, providing an excellent level of security for personal storage and mailboxes. Each lock comes complete with two keys, ready for immediate installation and use.

Brand Profile

Lowe & Fletcher

Lowe & Fletcher is a long-established British manufacturer of **locking systems for industry**, best known for high-volume, application-specific locks like **camlocks, quarter-turns, compression locks, and electronic/keypad solutions** used on things like **enclosures, cabinets, lockers, post/parcel units, and industrial equipment**. They're a **sixth-generation, family-owned** business with roots going back to **1889**, when **John Lowe and Thomas Fletcher** founded a lockmaking firm in **Willenhall** in the Black Country—one of the historic heartlands of UK lockmaking.

Today, Lowe & Fletcher forms part of the **Lowe & Fletcher Group**, which describes two main divisions: **Locking Systems** (industrial/OEM locks) and **Fire Safety** (smoke and fire containment systems).

Operationally, their Locking Systems division includes UK operations based around the West Midlands (e.g., **Wednesbury, WS10 7DE**) and they state they have multiple operational sites across Europe and the US to serve local and specialist markets.

On the product side, their camlock range alone spans **mini camlocks, standard camlocks, slamlocks, and IP-rated water-resistant variants** (with application-driven options like tool/coin operation and different cam geometries).
