Product Description

The Lowe & Fletcher 2303 7 Lever Springbolt Locker Lock is a high-quality, reliable locking solution designed for steel lockers, cupboard doors, and slam-locking cabinets. Featuring a robust 7-lever mechanism, this lock provides dependable security with up to 1,800 differs, making it an ideal choice for personal storage in offices, schools, and leisure facilities.

This lock is designed with a spring bolt (slam-to-lock) action, allowing doors to be pushed shut and securely locked without needing to use the key. It features a reversible design, making it suitable for both left and right-handed applications, and is designed for straightforward screw fixing through a round hole. Supplied in a durable zinc-plated finish, it comes complete with two keys.

Brand Profile

Lowe & Fletcher

Lowe & Fletcher is a long-established British manufacturer of **locking systems for industry**, best known for high-volume, application-specific locks like **camlocks, quarter-turns, compression locks, and electronic/keypad solutions** used on things like **enclosures, cabinets, lockers, post/parcel units, and industrial equipment**. They're a **sixth-generation, family-owned** business with roots going back to **1889**, when **John Lowe and Thomas Fletcher** founded a lockmaking firm in **Willenhall** in the Black Country—one of the historic heartlands of UK lockmaking.

Today, Lowe & Fletcher forms part of the **Lowe & Fletcher Group**, which describes two main divisions: **Locking Systems** (industrial/OEM locks) and **Fire Safety** (smoke and fire containment systems).

Operationally, their Locking Systems division includes UK operations based around the West Midlands (e.g., **Wednesbury, WS10 7DE**) and they state they have multiple operational sites across Europe and the US to serve local and specialist markets.

On the product side, their camlock range alone spans **mini camlocks, standard camlocks, slamlocks, and IP-rated water-resistant variants** (with application-driven options like tool/coin operation and different cam geometries).
