Specification Summary

Brand	Lowe & Fletcher
Product type	L&F

Product Description

The L&F 3780 Digital Combination Lock by Lowe & Fletcher is an easy-to-use and highly versatile electronic code lock system, providing convenient keyless access for a wide range of environments. Ideal for lockers, office furniture, and postal boxes, this lock eliminates the need for physical keys while maintaining robust security.

It features an audible 10-button keypad and supports multiple code levels, including a 4-digit user code, a 6-digit sub-master code, and an 8-digit master code. With both auto-lock and auto-unlock modes, it can be easily configured to suit your specific operational requirements. Designed for vertical fixing, it features reversible handing to accommodate both left- and right-handed doors.

The lock is powered by two AA batteries (included), which can deliver up to 50,000 cycles before needing replacement. For added peace of mind, a mechanical key override function is built-in to allow emergency access (override key is not included).

This lock is available in multiple finishes, including Black and Silver, with corresponding manufacturer references (3780B or 3780809). Please select your preferred finish and option from the choices below.

Brand Profile

Lowe & Fletcher

Lowe & Fletcher is a long-established British manufacturer of **locking systems for industry**, best known for high-volume, application-specific locks like **camlocks, quarter-turns, compression locks, and electronic/keypad solutions** used on things like **enclosures, cabinets, lockers, post/parcel units, and industrial equipment**. They're a **sixth-generation, family-owned** business with roots going back to **1889**, when **John Lowe and Thomas Fletcher** founded a lockmaking firm in **Willenhall** in the Black Country—one of the historic heartlands of UK lockmaking.

Today, Lowe & Fletcher forms part of the **Lowe & Fletcher Group**, which describes two main divisions: **Locking Systems** (industrial/OEM locks) and **Fire Safety** (smoke and fire containment systems).

Operationally, their Locking Systems division includes UK operations based around the West Midlands (e.g., **Wednesbury, WS10 7DE**) and they state they have multiple operational sites across Europe and the US to serve local and specialist markets.

On the product side, their camlock range alone spans **mini camlocks, standard camlocks, slamlocks, and IP-rated water-resistant variants** (with application-driven options like tool/coin operation and different cam geometries).
