Specification Summary

Brand	Lowe & Fletcher
Product type	Nut Fix

Product Description

The Lowe & Fletcher (L&F) 5720 is a robust, push-to-turn latch lock designed for secure, keyless storage. Ideal for lockers, office furniture, and personal storage cabinets, this padlockable cam lock offers a convenient security solution where users provide their own padlocks.

Constructed from durable die-cast zinc with a high-quality nickel-plated finish, the L&F 5720 features a 20mm body length and is secured using a reliable nut fix housing. It is designed to accommodate padlock shackles with a diameter between 5mm and 8mm.

Operation is smooth and intuitive: simply push the handle inward to engage the mechanism, then rotate it 90° clockwise to latch or unlatch. When a padlock is fitted, the free-wheel system disengages the handle, allowing it to spin freely to prevent the lock from being forced. Additionally, a positive "click" provides clear tactile feedback when the handle reaches the fully open or closed position.

Technical Specifications

- **Brand:** Lowe & Fletcher (L&F)
- **Body Length:** 20mm
- **Body Width:** 16mm
- **Material:** Zinc (Die Cast)
- **Finish:** Nickel Plated
- **Cam Bar Dimensions:** 58mm (L) x 15mm (W)
- **Fixing Type:** Nut fix housing (suitable for panels up to 13mm thick)
- **Movement:** 90° clockwise
- **Recommended Padlock Shackle Diameter:** Min 5mm / Max 8mm
- **Manufacturer Reference:** 5720017B

Key Features

- **Push-to-Turn Operation:** Smooth handle engagement requires pushing inward before rotating to operate.
- **Free-Wheel Security:** When a padlock is fitted, the handle spins freely to help prevent the lock from being forced.
- **Tactile Click:** Positive position click provides clear feedback between the open and closed positions.
- **Padlock Compatible:** Accepts standard padlocks with shackle diameters from 5mm to 8mm, ideal for shared locker environments.
- **Durable Construction:** Made from robust die-cast zinc with a corrosion-resistant nickel-plated finish.
- **Easy Installation:** Supplied with a secure nut fixing for straightforward mounting on panels up to 13mm thick.

Brand Profile

Lowe & Fletcher

Lowe & Fletcher is a long-established British manufacturer of **locking systems for industry**, best known for high-volume, application-specific locks like **camlocks, quarter-turns, compression locks, and electronic/keypad solutions** used on things like **enclosures, cabinets, lockers, post/parcel units, and industrial equipment**. They're a **sixth-generation, family-owned** business with roots going back to **1889**, when **John Lowe and Thomas Fletcher** founded a lockmaking firm in **Willenhall** in the Black Country—one of the historic heartlands of UK lockmaking.

Today, Lowe & Fletcher forms part of the **Lowe & Fletcher Group**, which describes two main divisions: **Locking Systems** (industrial/OEM locks) and **Fire Safety** (smoke and fire containment systems).

Operationally, their Locking Systems division includes UK operations based around the West Midlands (e.g., **Wednesbury, WS10 7DE**) and they state they have multiple operational sites across Europe and the US to serve local and specialist markets.

On the product side, their camlock range alone spans **mini camlocks, standard camlocks, slamlocks, and IP-rated water-resistant variants** (with application-driven options like tool/coin operation and different cam geometries).
