### Product Description

The Lowe & Fletcher 5841 Furniture Lock is a high-quality, double-flange pedestal lock designed specifically for wooden office furniture, cabinets, and drawers. Featuring a horizontal movement and a robust double-wing design, this lock provides reliable security for your workplace or home storage.

This lock is supplied with a 19mm body length and is finished in a clean, professional nickel plating. It operates on the popular Lowe & Fletcher 18 key series, offering up to 200 distinct locking combinations (differs) to ensure individual security. The lock mechanism turns 180° anti-clockwise and is supplied complete with two keys. It is an ideal replacement or new-fit solution for pedestals, desks, and wooden cabinets.

## Brand Profile

Lowe & Fletcher

**Lowe & Fletcher** is a long-established British manufacturer of **locking systems for industry**, best known for high-volume, application-specific locks like **camlocks, quarter-turns, compression locks, and electronic/keypad solutions** used on things like **enclosures, cabinets, lockers, post/parcel units, and industrial equipment**. They're a **sixth-generation, family-owned** business with roots going back to **1889**, when **John Lowe and Thomas Fletcher** founded a lockmaking firm in **Willenhall** in the Black Country—one of the historic heartlands of UK lockmaking.

Today, Lowe & Fletcher forms part of the **Lowe & Fletcher Group**, which describes two main divisions: **Locking Systems** (industrial/OEM locks) and **Fire Safety** (smoke and fire containment systems).

Operationally, their Locking Systems division includes UK operations based around the West Midlands (e.g., **Wednesbury, WS10 7DE**) and they state they have multiple operational sites across Europe and the US to serve local and specialist markets.

On the product side, their camlock range alone spans **mini camlocks, standard camlocks, slamlocks, and IP-rated water-resistant variants** (with application-driven options like tool/coin operation and different cam geometries).
