Specification Summary

Brand	Lowe & Fletcher
Product type	Furniture Lock

Product Description

The Lowe & Fletcher 5862 Sliding Door Lock is a reliable, plunger-type push lock designed specifically for securing wooden sliding doors on cabinets, cupboards, and other office or home furniture. The lock operates with a convenient push-to-lock action, while the key is used to release the sprung bolt and unlock the door.

Constructed with a durable nickel-plated finish, this lock features a 24mm body length and a 19mm head diameter. It utilizes the reliable 18 key series, offering up to 200 locking combinations to ensure dependable security.

This sliding door lock is available in multiple options to suit your security setup, including Keyed Alike (where multiple locks can be opened by the same key) and Keyed To Differ (where each lock has its own unique key). Please choose your preferred keying option, barcode, and manufacturer reference from the options below.

Brand Profile

Lowe & Fletcher

Lowe & Fletcher is a long-established British manufacturer of **locking systems for industry**, best known for high-volume, application-specific locks like **camlocks, quarter-turns, compression locks, and electronic/keypad solutions** used on things like **enclosures, cabinets, lockers, post/parcel units, and industrial equipment**. They're a **sixth-generation, family-owned** business with roots going back to **1889**, when **John Lowe and Thomas Fletcher** founded a lockmaking firm in **Willenhall** in the Black Country—one of the historic heartlands of UK lockmaking.

Today, Lowe & Fletcher forms part of the **Lowe & Fletcher Group**, which describes two main divisions: **Locking Systems** (industrial/OEM locks) and **Fire Safety** (smoke and fire containment systems).

Operationally, their Locking Systems division includes UK operations based around the West Midlands (e.g., **Wednesbury, WS10 7DE**) and they state they have multiple operational sites across Europe and the US to serve local and specialist markets.

On the product side, their camlock range alone spans **mini camlocks, standard camlocks, slamlocks, and IP-rated water-resistant variants** (with application-driven options like tool/coin operation and different cam geometries).
