Specification Summary

Brand	Lowe & Fletcher
Product type	Till & Drawer Lock

Product Description

The Lowe & Fletcher 5883 slam action cylinder drawer lock is a reliable locking solution designed specifically for wooden furniture, including office cupboards, workstations, and drawers. Featuring a convenient slam-to-lock action, this rim lock automatically secures the drawer or cabinet when closed, providing instant security without needing to turn the key.

This compact lock features a 38mm x 38mm square case with a 19mm backset and a 16mm diameter cylinder. Designed for vertical screw fixing through a round hole, it is straightforward to install on a variety of wooden furniture pieces. The lock is finished in a clean black coating, offering a discreet look that blends seamlessly with modern office and home furniture.

Supplied keyed to differ as standard, the L&F 5883 operates on the 18 key series with 200 unique differs and comes complete with 2 keys.

Brand Profile

Lowe & Fletcher

Lowe & Fletcher is a long-established British manufacturer of **locking systems for industry**, best known for high-volume, application-specific locks like **camlocks, quarter-turns, compression locks, and electronic/keypad solutions** used on things like **enclosures, cabinets, lockers, post/parcel units, and industrial equipment**. They're a **sixth-generation, family-owned** business with roots going back to **1889**, when **John Lowe and Thomas Fletcher** founded a lockmaking firm in **Willenhall** in the Black Country—one of the historic heartlands of UK lockmaking.

Today, Lowe & Fletcher forms part of the **Lowe & Fletcher Group**, which describes two main divisions: **Locking Systems** (industrial/OEM locks) and **Fire Safety** (smoke and fire containment systems).

Operationally, their Locking Systems division includes UK operations based around the West Midlands (e.g., **Wednesbury, WS10 7DE**) and they state they have multiple operational sites across Europe and the US to serve local and specialist markets.

On the product side, their camlock range alone spans **mini camlocks, standard camlocks, slamlocks, and IP-rated water-resistant variants** (with application-driven options like tool/coin operation and different cam geometries).
