Product Description

The Lowe & Fletcher Cam Lock Nut (L208) is a high-quality brass fixing designed specifically to secure cam locks firmly in place. Manufactured by industry leaders Lowe & Fletcher, this 22mm nut provides a reliable and durable solution for cabinet, locker, and furniture lock installations.

To ensure long-lasting performance and resistance to wear, the nut features a premium nickel-plated finish over its solid brass construction. It is designed to suit Lowe & Fletcher cam locks and is commonly used in conjunction with a pronged washer to provide a secure, slip-free fit. Whether you are replacing a worn component or installing a new cam lock system, this genuine L&F accessory ensures a precise fit and dependable hold.

Technical Specifications

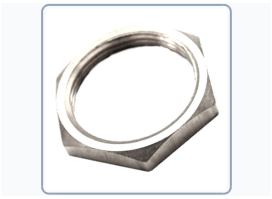

- **Brand:** Lowe & Fletcher
- **Manufacturer Reference:** 8980-203
- **Part Number:** L208
- **Diameter:** 22mm
- **Material:** Brass
- **Finish:** Nickel Plated

- **Weight:** 3g
- **Barcode:** 5055120603339

Brand Profile

Lowe & Fletcher

Lowe & Fletcher is a long-established British manufacturer of **locking systems for industry**, best known for high-volume, application-specific locks like **camlocks, quarter-turns, compression locks, and electronic/keypad solutions** used on things like **enclosures, cabinets, lockers, post/parcel units, and industrial equipment**. They're a **sixth-generation, family-owned** business with roots going back to **1889**, when **John Lowe and Thomas Fletcher** founded a lockmaking firm in **Willenhall** in the Black Country—one of the historic heartlands of UK lockmaking.

Today, Lowe & Fletcher forms part of the **Lowe & Fletcher Group**, which describes two main divisions: **Locking Systems** (industrial/OEM locks) and **Fire Safety** (smoke and fire containment systems).

Operationally, their Locking Systems division includes UK operations based around the West Midlands (e.g., **Wednesbury, WS10 7DE**) and they state they have multiple operational sites across Europe and the US to serve local and specialist markets.

On the product side, their camlock range alone spans **mini camlocks, standard camlocks, slamlocks, and IP-rated water-resistant variants** (with application-driven options like tool/coin operation and different cam geometries).
