Specification Summary

Brand	Lathams Steel Doors
Product type	Bullet

Product Description

The Latham's Carbon Steel Weld On Bullet Hinge with Grease Function is a heavy-duty, reliable hinge designed for welding directly onto steel frames, doors, and gates. Manufactured from high-quality carbon steel, these lift-off bullet hinges (also known as pintle hinges) provide a strong, permanent pivot point for a wide variety of fabrication and security projects.

A standout feature of this hinge is the integrated grease function, which allows for effortless ongoing maintenance and lubrication of the internal hinge pin. This ensures smooth, squeak-free operation and significantly extends the lifespan of the hinge. Each hinge is supplied complete with a brass washer to reduce friction and wear between the moving parts.

These versatile hinges are available in a range of sizes to suit different applications. The smaller sizes are ideal for fabricating toolboxes, locker cupboards, and small doors, while the medium and larger sizes are perfect for heavy-duty industrial doors, gates, and containers.

Please choose your preferred length, diameter, and weight from the options below to find the perfect fit for your project.

Technical Specifications

- **Material:** Carbon steel
- **Hinge Type:** Weld-on bullet hinge (lift-off / pintle)
- **Washer:** Brass washer included
- **Maintenance:** Integrated grease function for easy lubrication
- **Length Options:** 60mm to 18cm (please select from the options below)
- **Diameter Options:** 10mm to 20mm (please select from the options below)
- **Weight Range:** 160g to 800g (please select from the options below)
- **Pack Quantity:** 1

Key Features

- **Heavy-Duty Carbon Steel:** Robust construction designed to be welded directly onto steel doors, gates, and frames.
- **Integrated Grease Function:** Allows for easy lubrication of the hinge pin, ensuring smooth operation and preventing rust or seizing.
- **Brass Washer Included:** Reduces friction and wear between the hinge halves for a longer service life.
- **Versatile Applications:** Ideal for everything from small toolboxes and lockers to heavy-duty industrial gates and shipping containers.
- **Multiple Sizes Available:** Offered in a range of lengths and diameters to perfectly match your specific load and installation requirements.

Brand Profile

Lathams Steel Doors

Latham's Steel Doors (trading as **Latham's Steel Security Doorsets**) is a **family-owned UK supplier of steel security and fire-rated doors**, known for keeping a **large stock range** ready for fast dispatch and for offering **customisable steel personnel doors** for residential, commercial, and industrial use. The business is based in **Oldbury, West Midlands**, and was **established in 2011.**

They position themselves as the **UK's leading supplier of steel security doors** and emphasise being able to supply **security-rated** and **fire-rated steel doors** *from stock*, with options like different colours, glazing, louvres and access devices.

On the product identity side, Latham's is closely associated with steel "site/industrial" door setups and their branded **HOOPLY™ 19-point locking system** on key door lines (plus stocked fire exit doors often supplied pre-fitted with recognised panic/exit hardware).

They've also been publicly listed as joining/participating in the **Secured by Design** ecosystem for certified security-rated doors (useful if you're writing spec-facing copy).
