Specification Summary

Brand	Legge
Product type	Mortice Latch

Product Description

The Legge 3708 and 3709 Mortice Latches are reliable, flat pattern latches designed for internal timber doors. These latches are completely non-handed, featuring an easily reversible latch bolt that makes them suitable for both left and right-hinged doors.

Engineered for versatility, the latch case is pierced to accept bolt-through door furniture. For added security, the 3709 model can be deadlocked when fitted with a Legge No. 14 turn.

These latches are available in multiple sizes and finishes to suit your installation requirements. Please choose your preferred backset, case depth, manufacturer reference, and finish from the options below.

Technical Specifications

- **Case Depth:** 64mm or 75mm (please choose from the options below)
- **Backset:** 44mm or 60mm (please choose from the options below)
- **Finish:** Polished Brass or Nickel Plated (please choose from the options below)
- **Manufacturer Reference:** 3708 or 3709 (please choose from the options below)
- **Case Height:** 38mm
- **Forend Dimensions:** 76mm (Length) x 22mm (Width)

Brand Profile

Legge

Legge is a heritage **British lock and latch brand** with roots in **Willenhall** (the UK's traditional lockmaking hub). Allegion UK traces the brand's history back to **1881**, and Legge is still best known for dependable "everyday" **mortice locks, sashlocks, latches, nightlatches, and bathroom locks**—the kind of core door hardware that shows up everywhere from period homes to general commercial fit-outs.

Today, **Legge is part of Allegion**, sitting alongside other door-hardware brands in the group's portfolio. Allegion positions Legge as a premium, durable hardware line for **commercial and institutional** use, while in the UK it's particularly associated with **residential-style lockcases and latches** sold through trade and ironmongery channels.

On the compliance side, Legge ranges include **British Standard** options such as **BS 3621** 5-lever mortice deadlocks (often used for insurance-friendly front door security), with product pages calling out attack resistance features and UKCA/ratings where applicable.
