Specification Summary

Brand	Lince
Product type	Sliding Shackle

Product Description

The LINCE R90 Plus Monoblock Sliding Shackle Padlock is a heavy-duty, high-security locking solution designed to withstand both physical attacks and harsh weather conditions. Featuring a robust monoblock design, this padlock is ideal for securing roller shutters, gates, storage containers, and commercial premises.

Constructed with a solid, corrosion-resistant body and a 12mm hardened steel sliding shackle, the R90 Plus offers exceptional resistance to cutting and sawing. To further enhance security, it is supplied with three protective steel rings that slide over the shackle to hinder cutting attempts.

Security is driven by a high-specification cylinder featuring advanced anti-bump, anti-pick, anti-drill, and anti-extraction protection. For added safety, the cylinder is key-retaining, meaning the key can only be removed when the padlock is securely locked, preventing the lock from accidentally being left open. Supplied with three keys, this padlock provides reliable, long-lasting protection for high-value assets.

Technical Specifications

- **Body Width:** 100mm
- **Body Height:** 65mm
- **Body Depth:** 27mm

- **Shackle Diameter:** 12mm
- **Horizontal Clearance:** 30mm
- **Vertical Clearance:** 19mm
- **Keying:** Keyed To Differ
- **Keys Supplied:** 3
- **Weight:** 1.008kg
