Specification Summary

Brand	Locinox
Product type	Gate Locks

Product Description

The LOCINOX 3006 Push Pad Handle Set is a highly practical access solution designed to replace standard handles on Locinox surface-mounted locks. By converting a traditional handle into a push-to-open pad, it allows for quick, easy, and convenient gate opening with a simple push movement.

This set is specifically designed with one side blinded, meaning the reverse side is blocked off to restrict access or control the flow of traffic. It is ideal for creating a free-exit setup on gates where entry is restricted but exit needs to be effortless.

Constructed from durable, weather-resistant aluminium, this push pad is built to withstand the elements in external environments. It is quick and simple to install on both new and existing gate locks, making it a versatile upgrade for your security setup. It is fully compatible with all surface-mounted Locinox locks featuring an aluminium U-lock box, as well as surface-mounted mechanical code locks for swing gates.

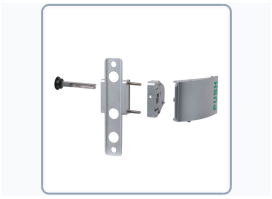

Technical Specifications

- **Brand:** Locinox
- **Manufacturer Reference:** 606515 (3006PUSH)
- **Material:** Aluminium
- **Finish:** Silver
- **Spindle Size:** 8mm
- **Width:** 92.5mm
- **Weight:** 240g
- **Weather Resistant:** Yes
- **Legend:** "Push"
- **Pack Quantity:** 1

Key Features

Brand Profile

Locinox

Locinox is a Belgium-based specialist manufacturer of **gate and fence hardware**, best known in the trade for installer-friendly, high-durability components like **gate locks, hinges, gate closers, latches**, and **electro-mechanical access control** parts designed specifically for outdoor, weather-exposed gates. Their whole pitch is "make the gate hardware the least annoying part of the job," with products engineered for fast fitting, consistent adjustment, and long service life.

The company is headquartered in **Waregem, Belgium**, and traces its origins to **1988** (often described as "over 30 years" in gate tech). Locinox supplies into **70+ countries**, positioning itself as a trendsetter in the fencing/gate world rather than a generic ironmongery line.
