Specification Summary

Brand	Locinox
Product type	Gate Locks

Product Description

The Locinox 3006PAD is a versatile and durable gate handle set featuring modern rounded corners and a robust anodised aluminium construction. Designed specifically for external gate applications, it offers excellent resistance to corrosion and wear, ensuring reliable performance in all weather conditions.

A standout feature of the 3006PAD is its flexible functionality. It can be configured in three different operational setups to suit your specific security and access requirements: both sides rotatable, both sides fixed, or one side fixed and one rotatable. This makes it highly adaptable, particularly when integrated with electric strikes or access control systems.

The handle set features standard 92mm centres and an 8mm square spindle. It comes supplied with fixing bolts suitable for gate profiles ranging from 37mm to 65mm, allowing for a quick and straightforward installation. It is fully compatible with Locinox Fortylock, Fiftylock, Sixtylock, and Eightylock insert locks. Please note that a Euro cylinder is not included and must be purchased separately.

Technical Specifications

- **Spindle:** 8mm square
- **Centres:** 92mm
- **Profile Compatibility:** Suitable for gate profiles from 37mm to 65mm
- **Material:** Anodised aluminium
- **Finish:** Black

Brand Profile

Locinox

Locinox is a Belgium-based specialist manufacturer of **gate and fence hardware**, best known in the trade for installer-friendly, high-durability components like **gate locks, hinges, gate closers, latches**, and **electro-mechanical access control** parts designed specifically for outdoor, weather-exposed gates. Their whole pitch is "make the gate hardware the least annoying part of the job," with products engineered for fast fitting, consistent adjustment, and long service life.

The company is headquartered in **Waregem, Belgium**, and traces its origins to **1988** (often described as "over 30 years" in gate tech). Locinox supplies into **70+ countries**, positioning itself as a trendsetter in the fencing/gate world rather than a generic ironmongery line.
